

VOL. 84. NO. 180.

LEAGUE CALLS FOR END OF THE FIGHTING AT SHANGHAI

Assembly Asks Neutrals to Aid in Bringing Peace and in Regulation of Withdrawal of Japanese Troops.

JAPAN ACCEPTS CONDITIONS NAMED

Fails in Effort to Have Future Status of Chinese Forces Determined—Resolution Unanimously Adopted.

By the Associated Press.
GENEVA, March 4.—Cessation of hostilities at Shanghai and withdrawal of the Japanese troops was demanded in a resolution unanimously adopted tonight by the League of Nations Assembly.

Both Japan and China were called upon to put into effect orders issued yesterday to the military commanders to put a stop to the fighting. Representatives of neutral Powers in the Shanghai area were requested to inform the Assembly as to how those orders were carried out.

The resolution read:

"This Assembly, recalling suggestions made by the Council on Feb. 29, and without prejudice to other measures envisaged therein,

"Calls upon the Governments of China and Japan immediately to take the measures necessary to insure that orders which, as it has been informed, have been issued by the military commanders on both sides for cessation of hostilities, shall be made effective.

"2. Requests that other Powers which have special interests in the Shanghai area inform the Assembly of the manner in which the invitation set out in the previous paragraph has been executed.

"3. Recommends that negotiations be entered into by Chinese and Japanese representatives with the assistance of the military, naval and civilian authorities of the Powers mentioned above for conclusion of arrangements which shall make definite the terms of hostilities, and the withdrawal of the Japanese forces."

The Assembly will be glad to be kept informed by the Powers mentioned above as to the development of these negotiations.

Japanese Amendment Rejected

Adoption of this resolution was the first concrete action by the Assembly. Sitting as a committee of the whole, the members received the resolution, rejected an amendment offered by Japan which would have empowered the military representatives to determine the terms of the Chinese force at Shanghai, then resolved themselves in a plenary session and ratified the action of the committee.

Naozato Sato moved the Japanese amendment, but it was opposed immediately by Paul Hyungs, the Belgian chairman, by representatives of Switzerland and Czechoslovakia and other delegates from the smaller countries.

Facing a certain overwhelming decision, the Japanese were brought to a vote, the Japanese withdrew it and accepted the resolution in its original form.

China Demanded Action.

China's spokesman in the Assembly had demanded that the League act immediately to halt the advance of the Japanese army in the Shanghai area and to arrange a formal armistice.

He charged that the Japanese troops kept on fighting yesterday after the order had been given to withdraw. Japan's representatives denied this, but asserted that their troops would be withdrawn from the area as soon as conditions warranted.

Then, said Dr. Yen: "I must ask you to take your eyes off this image the Japanese are throwing up. Just now I received telegrams that the Japanese are still advancing, their transports pouring fresh troops into the fighting even to a point 40 miles west of Shanghai. The defenders of the fort at Wusung were killed to the last man."

Now I insist that this Assembly take action at once to put an end to these hostilities and arrangements of a formal armistice."

Sato said the troops, of which

DEMONSTRATORS INVADE KENTUCKY GOVERNOR'S HOME

About 100 Men and Women
Protesting Against Sales
Tax Force Way Into
Executive Mansion.

MERCHANTS RALLY ON CAPITOL LAWN

Ruby Laffoon Says He Will
Not Prosecute and His
Bill Proceeds Through the
Legislature.

By the Associated Press.
FRANKFORT, Ky., March 4.—A crowd of more than 100 men and women forced their way into the Executive Mansion, frightened members of Gov. Ruby Laffoon's household and slightly damaged the furnishings yesterday in a demonstration against the Governor's 1 per cent general sales tax proposal.

Gov. Laffoon was not at home, being in his office in the Capitol. Word of the demonstration was taken to him by members of his household, who were seated when the demonstrators forced their way past a Negro doorman. Several men who appeared to be spokesmen asked to see the "woman on the sofa," Gov. Laffoon said.

When Douglas Majors, the doorman, refused to let the crowd in, he said, one of them offered him \$40 if he would tell where the Governor was. He said they insisted the Governor was in the mansion. When he refused to let them in, Majors said, the men pushed him aside and walked into the reception room.

Only Two Children at Home.
Mrs. Laffoon and the Governor's two daughters who live with him, Miss Leila Laffoon and Mrs. Wil Robinson, were not at home at the time. The Governor's two grandsons, Tommy Johnson, 2½ years old, and R. W. Robinson, 11 were home but were not molested.

When some of the demonstrators sought to go to the second floor they were told by a maid that no one was up there and they did not attempt to force their way in.

After remaining in the mansion more than an hour, the crowd left. Almost every room in the lower part of the building bore evidence of the visit. There were many cigarette holes burned in carpets and on the edges of furniture. Titter on the floors and electric light globes were missing. The piano in the drawing room was played and music sheets were torn.

"This is not the Governor's house," one of the demonstrators remarked. "It belongs to us because we paid the taxes to build it."

Meeting on Capitol Lawn.
The disorder occurred while thousands of merchants from all parts of Kentucky were holding a mass meeting in the rain on the lawn in front of the Capitol, near the mansion. The meeting was arranged as a protest against the sales tax, which has passed the House and is pending in the Senate. It carries the Governor's approval.

With banners carrying slogans, such as "Bankrupt Retailers Pay no Taxes at All," "Tenant Farmers Pay Sales Tax, Too," "The Sales Tax Hits the Farmer, Too—Good by Tobacco," "Economy, Not Taxation," and "Down With the Sales Tax," the merchants showed their opposition.

Her hands bore labels reading, "Laffoon Sleeps, Wake Him," and "Opposed to Any Sales Tax."

Intermingled with the delegations were several hurriedly printed signs attributed by the merchants to persons favoring the tax and attempting to embarrass the protesters. Some of these signs read "Opposed to Prohibition," and "Opposed to Any Tax."

Meeting in the downtown business district after coming here by train, buses and private automobiles, the merchants paraded to the Capitol.

Last night most of the visitors remained at the Capitol to attend the open meeting of the Senate Rules Committee. The merchants renewed their protests before this committee.

Gov. Laffoon said today he planned to take no action against the crowd that invaded the Executive Mansion.

FOR WAR-TIME PRICE-FIXING CONSTITUTIONAL AMENDMENT

War Policies Commission to Make
Recommendation to President
and Congress.

WASHINGTON, March 4.—A constitutional amendment to give Congress absolute powers to fix prices in war time will be asked by the War Policies Commission in its report to President Hoover and Congress.

The recommendation for such an amendment was decided on after Attorney-General Mitchell had ruled that without it price-fixing either by Congress or the President in wartime would be subject to judicial review.

With the amendment becomes a part of the Constitution, temporary price-fixing legislation under existing laws will be recommended for the imminent.

Lindbergh Baby and Nurse

BETTY GOW, who is wheeling the carriage, was the last person in the Lindbergh household to see the kidnapped child.

Lindbergh Asks Kidnappers To Communicate With Him

Continued From Page One.

she was at the Lindbergh home. He is described as a sailor who has been employed on the yacht of a prominent New Yorker.

The kidnappers took the board house in which Johnson lived at Elmwood, and in the room had not given up, but Johnson did not return to it last night.

There have been unexplained telephone conversations between the investigators here and police officials in many cities. Some of it was learned, concerned specific persons.

Stalemate; Appeal Broadcast.
Significant of the stalemate was the radio appeal broadcast last night by direct authorization of Col. Lindbergh. It was:

"Col. and Mrs. Lindbergh do not want to hope that whoever is in possession of the child will make every effort to communicate with them."

This indicated that the abductors had complained of the clerk's inefficiency and that Osmann had been nursing a grudge against his chief.

**ONE KILLED, THREE RESCUED
WHEN TRAPPED IN MINE**

Workers at Mahanoy City, Pa., Dig Out Men Entombed by Fall of Coal.

More than 325 persons, many of them employees or former employees of the Lindberghs and Osmanns, were questioned in the Lindbergh home yesterday.

After they had left cablegrams were sent to Scotland Yard asking British detectives to check up on the past of Miss Gow, and also of Ollie Wheatley, the Lindbergh butler.

**Letter Demands \$50,000 on Penalty
of Death to Child.**

By the Associated Press.

WASHINGTON, March 4.—A letter demanding \$50,000 ransom for the Lindbergh baby on penalty of death for the child was taken from the mail here today by postal authorities and given to police.

Police were unable to make out the diagram except the words "New York Avenue," a Washington street.

The letter, which had been mailed in a corner box, bore no stamp. It was printed, as had been cards addressed to Col. Lindbergh and taken from the mail in Newark. Police immediately communicated with New Jersey authorities.

Against Calling Off Police.

Suggestions that the police cease the hunt, and that thus the kidnappers might deal with the Lindberghs without fear of arrest were immediately turned down by Col. Lindbergh. He said he wanted the police search to continue, and expressed satisfaction with the manner in which it has been conducted.

At the same time, Col. Lindbergh is anxious to treat directly with the kidnappers and has indicated willingness to meet their terms for the baby's safe return.

There was little sleep for the worried parents last night. Both Col. and Mrs. Lindbergh, however, maintained outward calm, though each shows strain.

Some of the voluminous mail has been of a threatening nature, hinting in one case that Mrs. Lindbergh, the former Anna Morrow, would be killed, and that Col. Lindbergh, too, was marked for death.

Neither the Lindberghs nor the police give these threats any serious thought.

There was one note which said "the baby will die." There were others—quite obviously the work of drunks or crooks.

Other notes sought to suggest solutions of the kidnapping. At least two gave street addresses in widely separated cities where, the writers said, the baby was being held. Investigation proved these clews erroneous.

So far as they had committed themselves for publication, the investigating officers had formulated no definite theory either as to the identity of the kidnappers or the baby's safe return.

Miss Gow has probably seen much more of the baby than has its mother because of Mrs. Lindbergh's many absences from home with her flying husband. The child was said to be very fond of her. The young woman was considered as a member of the family instead of a servant.

Since the baby was kidnapped she has been Mrs. Lindbergh's constant companion.

The police have been attempting for 24 hours to locate Henry Johnson, a friend of Miss Gow. The police explained that no suspicion was attached to Johnson, but said the search for him was part of the routine effort to check every angle of the case.

Telephoned to Nurse.
Johnson, they said, communicated with Miss Gow by telephone at 9 o'clock Monday night, when

3 FOUND SHOT TO DEATH IN OBLONG (ILL.) HOME

Evidence Indicates Cafe Man
Killed Wife and Stepson,
Then Self.

By the Associated Press.

SHANGHAI, March 4.—Three persons were found shot to death in the home of E. W. Garnier, 44 years old, restaurant owner, and a coroner's jury today heard evidence which indicated a double slaying and suicide.

Garnier's body was in a coal house at the rear. His wife, Viola, 45, and his stepson, Lee Russell McKinney, 16, were on a bed in an upstairs room.

In a letter found near his body Garnier explained his business affairs and his desire to leave the country. A letter to his brother, Ira, in Indianapolis, said he had quarreled with his wife for several months and that she had been indifferent to him.

Mrs. Garnier's suit for divorce was to have been heard next week.

McKinney died of five shots. Mrs. Garnier, 44, and her husband of one, indicating Coroner L. P. Sloan said, that Garnier had killed the others and then himself. The slayings occurred late last night.

general location of the place in which the baby is being held.

Inquiries Made in Detroit.

Telephone communication with Detroit last night, though not discussed with newspaper men by police at either end of the line, was concerned with the activities and present whereabouts of one "Sister" Gow. The fact was noted that the name of the nurse in charge of Miss Gow, Betty Gow, Phoenix, was said to be merely a coincidence.

Another clew that interested officials had to do with a "Mary Rogers," with a Jersey City address, whose activities in Evanston, Ill., in 1930 led to the belief she might have some knowledge of the present case. The woman sought to adopt an infant from an Evanston hospital in that year for the purpose, police said they later learned, of using it in a kidnapping plot.

More than 325 persons, many of them employees or former employees of the Lindberghs and Osmanns, were questioned in the Lindbergh home yesterday.

After they had left cablegrams were sent to Scotland Yard asking British detectives to check up on the past of Miss Gow, and also of Ollie Wheatley, the Lindbergh butler.

**Letter Demands \$50,000 on Penalty
of Death to Child.**

By the Associated Press.

WASHINGTON, March 4.—One man was injured and the Baptist Church and several smaller buildings were demolished here today by a severe windstorm.

There was evidence that, in the rush to escape from the Japanese advance, some Chinese drivers lost control of their cars, racing over the rough roads and were caught rather than risk being overtaken.

After they had left cablegrams were sent to Scotland Yard asking British detectives to check up on the past of Miss Gow, and also of Ollie Wheatley, the Lindbergh butler.

High Wind at Davelerville, Miss.

By the Associated Press.

DALEVILLE, Miss., March 4.—

Three of four miners who were trapped in the Ellengowan colliery at Mahanoy City, were rescued today by workers who dug their way to the entombed men in two hours.

The fourth man, Joseph Alexenos, 46 years old, of Mahanoy City, was crushed to death by a fall of rock and coal.

EMERGENCY FUND RELIEF DONATIONS RISE TO \$881,000

Official Tabulation Is Announced as \$754,000 With \$127,000 Additional Unaudited.

FURTHER LARGE GIFTS EXPECTED

Report of Schools Division Will Not Be Ready Before the Latter Part of Next Week.

A total of \$881,242.96 of known gifts and pledges to the Crisis Campaign, including those officially audited and tabulated, was received today. The campaign, which began Feb. 21, passed its \$750,000 objective Tuesday, and is being continued on the original plan with the prospect that much more than \$880,000 will be raised for unemployment emergency relief.

The amount officially tabulated on 10:10 a. m. today was \$754,715.59, of which about 39 per cent was in cash, the remainder being in pledges, mostly payable monthly for one year.

The Southwestern Bell Telephone Co. this afternoon sent in its contribution of \$13,500, of which \$4,000 was given by the company and \$1,500 by its 1,500 employees.

This is the first report from the local utility concern.

The official tabulation did not include the city employees' subscriptions, which were brought to \$31,190.88 today by a report of \$5500 subscribed in the Water Department. It included only \$1250 of the \$13,500 raised by Federal employees. Other authenticated contributions not included in the official tabulation are \$143 from Coffey Bell Railroad employees, received just after the morning audit, and \$200 from a group of Christian Science churches.

\$18,425 From Postal Employees. Compilation of the gifts of \$18,425 from postal employees was completed this afternoon, at the Federal Building, and showed \$4,821.57. The largest group, subsections in the postal service, was \$18,424.95 from the Post office employees. The Federal employees' pledges are payable over a six months' period, and representatives have stated that they will repeat their subscriptions for another six months if the need continues.

Divisional items of the tabulated total were:

Firms, executives and employees, \$12,551.93.

Special gifts, not including those made with firms or through women's division, \$31,445.50.

Women's division, \$25,592.99.

Professional division, \$13,900.99. Special headquarters division, \$11,605.35.

Churches, except those reported through women's division, \$2422.90. Public employees (Federal, one branch), \$1280.00.

Miscellaneous, \$950.72.

Large contributions from the Union Electric Co. and Laclede Gas Light Co. and their employees are expected to be received before the end of this week. The Public Service Co. expects to make its return next week.

Schools' Report Not Ready.

As has been announced, all the money raised is to be used in direct relief work in the city and St. Louis County, through the Citizens' Committee on Relief and Employment. All in excess of \$500,000 will be held in trust by the committee, led by Archbishop Gleeson, Aaron S. Tamm and J. D. Perry Francis, last named general chairman of the Crisis Campaign. They will disburse it through the Citizens' Committee.

The Crisis Committee has been informed that the report of the schools division will not be ready before the latter part of next week. At a meeting of the schools division in the Board of Education office Thursday afternoon, with Richard Murphy, president of the Board, presiding, a committee was named to take charge of pledges and payments from the educational institutions. Those on the committee are the Rev. Dr. L. E. Fuerbringer, president of Concord Seminary; Henry J. Gerling, Superintendent of Schools; the Rev. R. S. Johnston, S. J., president of St. Louis University; Chancellor George R. Davis, of Washington University, and the Rev. Paul J. Hitchcock, superintendent of Catholic high schools, with the executive officers of the Board of Education.

\$1,188 From Terminal Railroad.

The Terminal Railroad Association, first in the railroad and ship group to report, yesterday afternoon turned in its list for \$1,188.

Johnson, Stephens & Shinkle Shoe Co. reported subscriptions amounting to \$2541. The Boatmen's National Co. turned in subscriptions of \$602.50, this being separate from the list of the Boatmen's National Bank.

Employees of Welle-Boettner Bakery Co. subscribed \$1069.20.

Swedish Prince and Bride-to-Be

Associated Press Photo
PRINCE LENNART, 22-year-old grandson of the King of Sweden, and
MILLE KARIN NISSEVANDT, 20, arriving at Dover, England. Lennart has renounced his royal prerogatives for his marriage to the commoner, which will be held in London.

LENNART'S MOTHER APPROVES WEDDING

Grand Duchess Marie Reaches England for Swedish Prince's Marriage to Commoner.

By the Associated Press.

SOUTHAMPTON, England. March 4.—The young Swedish Prince, Lennart, who renounced royal prerogatives to wed a commoner, received approval from his mother, Grand Duchess Marie Pavlovna of Russia, who arrived from the United States aboard the Europa yesterday. "We come over to have our wedding bells," the Grand Duchess told her son at the gangplank.

The young pair arrived from Sweden recently when their marriage was forbidden by the King. They plan to be married in London within a fortnight.

SEABURY COMMITTEE UPHELD IN SUBPENAING LEGISLATORS

New York Court of Appeals, However, Rules Against Jan Term of Senators as Wrongly Obtained.

ALBANY, N. Y., March 4.—State Senator John A. Hastings, intimate friend of Mayor James J. Walker of New York, was in temporary victory in the Court of Appeals yesterday in his fight to avoid serving a 20-day jail sentence for ignoring a subpoena to testify before the Republican Legislature's committee investigating Walker's administration. The court held the procedure of procuring a jailing order by Samuel Seabury, chief counsel of the committee, was wrong. The court, however, upheld Seabury and the committee that Hastings possessed no legislative privilege exempting him from the subpoena. It also pointed out what it said was the proper procedure for jailing the Congressional Senator.

The opinion was written by Benjamin C. Grier, Chief Judge who recently was named a Justice of the United States Supreme Court.

The court also upheld the ruling of the lower courts that Dr. William F. Doyle, former New York City fire department veterinarian, was not a warrant holder and hence issued. Hastings brought before the committee and if he then refused to answer questions, he should have been declared in contempt and the jail sentence imposed.

The Crisis Committee has been informed that the report of the schools division will not be ready before the latter part of next week. At a meeting of the schools division in the Board of Education office Thursday afternoon, with Richard Murphy, president of the Board, presiding, a committee was named to take charge of pledges and payments from the educational institutions. Those on the committee are the Rev. Dr. L. E. Fuerbringer, president of Concord Seminary; Henry J. Gerling, Superintendent of Schools; the Rev. R. S. Johnston, S. J., president of St. Louis University; Chancellor George R. Davis, of Washington University, and the Rev. Paul J. Hitchcock, superintendent of Catholic high schools, with the executive officers of the Board of Education.

WOMAN HIT BY AUTO DIES OF SKULL INJURY

Driver Thinks Mrs. Minnie Funk, 68, Walked Against His Car.

Mrs. Minnie Funk, 68-year-old widow, 2822 College avenue, died last night at Christian Hospital of a fractured skull suffered Tuesday evening when struck by an automobile when he stopped to investigate the cause of a jolt. Larch expressed the opinion that Mrs. Funk had walked against the side of the machine while crossing the street.

This death brings the number of fatalities in motor vehicle accidents in the city since the first of the year to 39, as compared with 32 in the corresponding date last year.

EFFORT TO COLLECT CITY'S RYCKOFF CLAIM DROPPED

Board of Estimate Acts After Much Delays on Lighting Contractor's Estate.

The City Board of Estimate and Apportionment today voted to make no further effort to collect the city's claim of \$157,044 against the estate of Alfred M. Ryckoff, Chicago street lighting contractor, for his alleged overcharges in the installation of a street lighting contract in St. Louis in 1928.

The Board of Estimate on Jan. 9, 1931, instructed the City Counselor to proceed with a civil suit against the estate of Ryckoff, who died in Chicago Dec. 30, 1928. City Counselor Muench has since looked into the case and sent one of his assistants to Chicago to look into the affairs of the estate.

In his report to the Board of Estimate, made three weeks ago, Counselor Muench gives his opinion that the city would have little prospect of recovering any substantial amount by the proposed suit, for two reasons. The first reason is the apparent insolvency of the Ryckoff estate, which, as reported by the counselor's assistant, has assets of less than \$11,000 to meet claims amounting to more than \$25,000.

The second reason is that a settlement made with Ryckoff by the Comptroller's office, in which Ryckoff accepted a cut of \$18,950 in his bill against the city, might be pleaded in defense of the proposed new suit.

OBTAINS PERMISSION TO SELL VANDEVENTER BANK SECURITIES

Receiver Authorized by Court to Dispose of Assets Valued at \$450,000.

Joseph H. Rheinstrom, receiver for Vandeventer National Bank, obtained an order from Federal Judge John N. Cole to sell securities with a par value of \$450,000, which are among the bank's assets.

The bank was closed by its directors Jan. 1. It had deposits of about \$1,250,000, capital of \$250,000 and \$50,000 in surplus.

An inquiry is to be made by the city to determine what economies, if any, might be made by combining the supply purchasing agencies of the city, the Police Board and the Board of Education. Recommendation for the investigation was made by Comptroller Nolte as part of his plan for reducing municipal expenses with a hope of lightening the tax burden.

The Board of Estimate and Apportionment, consisting of Mayor Miller, Nolte and President Neuf of the Board of Aldermen, authorized Nolte today to employ Arthur C. Morris, engineer and auditor in the Comptroller's office, to look into the centralized purchasing question.

The city maintains a supply department for the general services of the municipal government. The Police Department, administered by a board appointed by the Governor, maintains its own purchasing office under the direction of a board member. The Police Board's budget cannot be changed by the city.

The Board of Education, an independent agency acting under a State charter, with its own tax base, is also involved.

Nolte thinks a principal value of centralized purchasing for the three agencies would be in annual contracts for supplies required in large volume, such as coal, gasoline and oil. One economy which the city already has adopted is a reduction in candlepower of the electric street lights in a large downtown district.

15 YEARS FOR FEUD MURDER

Missouri Farmer Ambushed Neighbor Over Killing of Dog.

By the Associated Press. SPRINGFIELD, Mo., March 4.—William Alexander, Greene County farmer, was convicted today in the ambush murder of a neighbor and former fox-hunting companion, John Cook, and was sentenced by a jury to serve 15 years in prison.

Cook's slaying last fall climaxed an old feud over the death of Minnie, a fox hound.

Chiroptist Dies While at Work.

Samuel A. Richardson, 74 years old, Negro chiroptist, died unexpectedly at 6:30 p. m. yesterday at the home of a patient at 1575 DeGiverville avenue. Death apparently was due to heart disease. Richardson lived at 2428 Clark avenue.

Funeral of Mark Schulte.

The funeral of Mark Schulte, 88 years old, a retired farmer of St. Charles County, was held today from All Saints Catholic Church at St. Peters, Mo. He was a veteran of the Civil War and is said to have been the first land owner in St. Charles County to donate a right-of-way for St. Louis-Kansas City Highway No. 40.

MEXICAN CABINET CHANGES
PLANNED, NEWSPAPER REPORTS
Say Secretary of War Calles Will
Become Head of Interior
Department.
By the Associated Press.

MEXICO CITY, March 4.—The newspaper *La Prensa* said today it was "widely rumored" that Secretary of War Plutarco Elias Calles would become Minister of the Interior soon and he succeeded as Secretary of War by Gen. Alvaro Rodriguez, present Secretary of Industry, Commerce and Labor. The paper said Subsecretary of Industry Primo Villa Michel, late Minister to Germany, would become Secretary, and that Secretary of Interior Gen. Juan Jose Riojas would return to the army. Other Mexico City newspapers did not print the story and there was no official confirmation of the report.

RESIDENTS OPPOSE
CHANGE IN ZONING

Ask Aldermen to Bar Under-taker From Lafayette and Waverly Place.

A bill to change the zoning of the southwest corner of Lafayette avenue and Nicholson place from multiple dwelling to commercial, which was opposed by neighboring property owners and others, was taken under advisement yesterday by the Legislation Committee of the Board of Aldermen, after a hearing.

L. C. Wagoner, an undertaker, owns 2034 Lafayette avenue in which he wants to operate an undertaking establishment, which is not permissible in a multiple dwelling district. He used to manage another establishment, facing on Missouri avenue at Lafayette avenue, and his attorney told the committee he bought this house supposing he could conduct his business there, but that residents of the neighborhood were threatening to make him leave. Wagoner, addressing the committee, said he would landscape the yard and improve the building, and thought the place would be better than the boarding house formerly there. R. L. McChesney, president of

Hip Pocket Padlock Against Pair
By the Associated Press.

KANSAS CITY, Mo., March 4.—Federal Judge George L. Rivers yesterday issued restraining orders against Henry Hanner and W. S. Pidgeon, similar to edicts by which bootleg establishments are padlocked. The men were charged with dispensing liquor from hip pockets at the Cole County courthouse in Jefferson City. Violation of the restraining orders would subject them to sentence for contempt of court.

R. L. McChesney, president of

the Lafayette Park Improvement Association, said his organization was opposed to commercial encroachment on the neighborhood. The house Wagoner owns faces Lafayette Park.

John A. Bryan, an interior decorator, described the section as ideal for apartments and dwellings for persons of moderate circumstances.

He said a client of his was considering building a three-story apartment there, which would be affected adversely if the zoning regulations were changed. Stores at Lafayette avenue and the adjacent Waverly place were erected before the present zoning law was enacted.

KIN TELLS OF BUYING
BONDSMAN'S PROPERTY

Sister of C. L. Hicks Seeks to Prevent Foreclosure in Bond Forfeiture.

The suit of Mrs. Viola Dawes of Tell City, Ind., and her 16-year-old daughter, Marjorie Kellens, to enjoin Sheriff Stradtman from selling realty at 2343 Madison street and 2401 Hartford street, was heard in part by Circuit Judge Hall yesterday and was continued for one week at which time evidence will be offered by Circuit Attorney Miller, who ordered the sale under a bond forfeiture.

The judgment is against Mrs. Dawes' brother, Clarence L. Hicks, former professional bondsman, alleged by the State to be the actual owner of the realty, title to which stands in the names of his sister and niece.

The amount involved in the present action is \$1000. Assistant Circuit Attorney James E. McLaughlin, who is handling the matter, said the claims against Hicks grow out of bond forfeitures, total \$9500.

Mrs. Dawes testified that she purchased the property from her

brother in 1927 after he had been wounded, as he said, by Cuckoo gangster.

Mrs. Dawes testified she sold \$14,000 in Liberty bonds to State Senator Joseph Mogler, who was mysteriously murdered about three years ago, and used the cash to buy the property. In about the same way the Stradtman street property was acquired from Hicks by his sister, she told the Court. Title to this was placed in the name of her daughter.

SEEKS THIRD TERM AS CORONER

Dr. Rudolph S. Vitt in Race for Republican Nomination.

A third term as Coroner will be sought by Dr. Rudolph S. Vitt, Republican, in the coming election. Missouri law prohibits Coroners from having successive terms. Dr. Vitt, who has been active in safety work, held the office in 1917-20 and in 1925-26.

Dr. Vitt, who resides at the Saum Hotel, 1919 South Grand boulevard, is a practicing physician and president of the Chippewa Trust Co.

ACQUITTED OF \$27 ROBBERY

Clarence Hutson of Overland Offers Alibi Defense.

Clarence Hutson, Overland, was acquitted yesterday by a jury in Circuit Judge Nolte's court at Clayton of a charge of robbing Wilbur Admiston, Overland, of \$27 on Sept. 30. Hutson presented an alibi.

CONGRESS AGREES
ON BILL TO GIVE
WHEAT TO NEEDY

Senate Accepts House
Amendment to Distribute
40,000,000 Bushels of
Farm Board Supply.

By the Associated Press.
WASHINGTON, March 4.—Congressional action was completed today on a bill to give 40,000,000 bushels of Farm Board wheat to the Red Cross for the needy and for livestock feed when the Senate agreed to a House amendment. The action was taken late in the day by an oral vote. The bill now goes to the White House.

The House had put into one measure bills previously passed by the Senate, one of which provided 40,000,000 million for human needs and the other 5,000,000 for feed for livestock. In the Northwest drouth areas, while leaving the total provided 40,000,000 bushels. This was the amendment to which the Senate agreed.

The House passed the Senate bill yesterday. The vote was 244 to 1. The Senate passed the bill two months ago, but it was rejected once by the House Agriculture Committee. The committee reconsidered it after members threatened to resort to a discharge petition. The maneuver successfully worked the case of a prohibition amendment resolution.

The grain will be taken over by the Red Cross, which will mill it into flour and in some cases have it baked into bread before distributing it.

The cost of the wheat will be borne by the Farm Board. It stands to lose about \$15,000,000 by the transaction. But, said the man who drove the bill through, the storage charges would eat up the grain's value in a short time anyway.

House action was non-partisan in the final steps, as Rep. Republican Leader Neill pledged support to the measure as soon as the Democrats brought it to the floor. The negative votes were by Adkins of Illinois and Hope of Kansas. Both are Republicans.

The bill makes 40,000,000 bushels of stabilization wheat available to the Red Cross to be released as demanded on the approval by President Hoover. It remains available until May 1, 1933.

The Red Cross, or organizations designated by it, may mill the wheat into flour and, in cities of over 25,000, bake it. No profit is allowed in the processing.

John Barton Payne, chairman of the Red Cross, told the committee 1850 of its 3000 chapters now are engaged in relief work and during the last several months has been feeding 1,000,000 people.

Payne has said the Red Cross was ready to expand its distribution. An effort by Connally (Dem.) of Massachusetts to give this job to the President was defeated.

The House voted down, 73 to 26, an amendment by Johnson (Dem.) of Oklahoma to increase the wheat supply to 50,000,000 bushels. It also rejected, 89 to 22, a proposal by Huddleston (Dem.) of Alabama that the Government bear the cost of distribution.

HOUSE GIVES RIGHT OF WAY
TO ANTI-INJUNCTION BILL

Norris-La Guardia Measure to Be
Pushed in Recognition of Eco-
nomic Situation.

By the Associated Press.

WASHINGTON, March 4.—The Norris-La Guardia bill to limit use of Federal injunctions in labor disputes and to outlaw the "yellow dog" labor contracts today was given legislative preference in the House by the Judiciary Committee.

Decision to push the measure, already approved by the Senate in an overwhelming vote, was made by the Democratic leadership to clear the way for the new revenue tax bill to be brought up next week.

Chairman Summers of the Judiciary Committee said the urgency of the measure was determined largely upon the general recognition of the unsettled economic situation. Representative La Guardia (Rep.), New York, co-author of the measure with Senator Norris (Rep.), Nebraska, told the Rules Committee that Speaker Garner and Representative Rayney of Illinois, the Democratic leader, had expressed the desire to expedite action on the legislation.

EXPLORER KILLED IN FALL

Robert H. Tafel Was Member of
Marooned Arctic Expedition.

By the Associated Press.

EASTON, Pa., March 4.—Robert R. Tafel, 56 years old, youngest member of the Flax-Ziegler North Pole expedition of 1902, which was marooned for two years, died today of a fractured skull suffered when he fell from a second-story window of the Easton sanatorium.

He left a note thanking the officers of the hospital for their "uncanny kind and attentive" treatment of him. He had been a patient there for some time. The expedition, marooned after it lost its ship in 1902, was re-united in 1905 with only one fatality among its 80 members. Tafel continued his exploring activities long afterward.

AUSTRALIAN DEBT MEASURE

Commonwealth Would Seize Funds of Defaulting State.

CANBERRA, Australia, March 4.—The Australian House of Representatives passed by a vote of 46 to 15 yesterday a bill enabling the Commonwealth to seize the revenue and bank deposits of any State defaulting on its payments.

The legislation was a direct outcome of New South Wales' defaulting of interest payments due overseas on Feb. 1. Another bill, passed by a vote of 54 to 5, gives holders of Australian bonds direct rights against the Commonwealth. The Commonwealth has paid the amount of New South Wales' default.

Louis Brock, Movie Man, Divorced. LOS ANGELES, Calif., March 4.—A divorce was granted yesterday to Phyllis R. Brock, former dancer, from Louis Brock, motion picture producer.

BRITAIN PUTS CHECK
ON CREDIT TO RUSSIAPurpose Apparently Is to Insist
on More Purchases of
English Manufactures.By the Associated Press.
LONDON, March 4.—Credits for
longer than one year will no longer
be extended to Soviet Russia on
British exports, except under more
stringent conditions than have pre-
valled in the past, the Government
declares.The announcement was made in
the House of Commons yesterday.
The exact nature of the conditions
was not set out and it was ex-
plained these still were under ne-
gotiation.The general assumption in politi-
cal quarters is that Great Britain
is insisting on greater purchases of
British manufactures.British-Russian trade and credit
relations are expected to be one of
the subjects discussed at the im-
pending conference in Canada. Like
tariffs, Russian credits probably
will be used in the future as a
bargaining weapon for the benefit
of the whole empire.Walter Runciman, president of
the Board of Trade told the For-
eign Press Association that he
hoped the new British tariff of 10
per cent might work something like
an inoculation, ultimately effecting
a cure of diseased world trade."I hope it may be the precursor
of free markets, not only here, but
elsewhere," he said."It is sometimes necessary in the
interests of world medicine to iso-
late a patient with a disease
somewhat similar to that which we
aim at curing. Tariff barriers
cannot be regarded as the most
healthful way of cultivating interna-
tional trade, but they may be the
only way whereby we can guide
trade into profitable channels.""We are bound and determined
to make arrangements for our own
dominions during this summer and
autumn which will add to the
volume of trade between us and them,
but that does not preclude us
from making friendly arrangements
with foreign countries."ST. FERDINAND SEWER DISTRICT
ENGINEER WITHDRAWS SUITCharles C. Keck Had Sought to Re-
cover \$9803 from P. H. McAvoy.The suit in which Charles C. Keck,
former engineer for St. Ferdinand
Sewer District, sought to recover
\$9803 from P. H. McAvoy, was dis-
missed by counsel for Keck.The petition alleged that the
money was paid by check in 15 in-
stallments beginning shortly after
Keck became engineer for the
sewer district, but did not state the
consideration for which it was paid.
Settling at a deposition in an
earlier suit several months ago, Keck
said he had paid McAvoy \$12,000,
which he considered a loan, after
McAvoy had suggested he could be
of assistance in securing Keck's
appointment as engineer for the
district.McAvoy in 1928 was the body-
guard and an active campaigner
for the election of Circuit Judge
Mulvey, in whose court the sewer
district was incorporated. Judge
Mulvey has said he broke with Mc-
Avoy after learning that he had
had a hand in the sewer district's
affairs.As engineer for the sewer dis-
trict Keck was paid fees of about
\$40,000. He resigned after about
a year when the district was en-
larged and its supervisors declined
to increase his drawing account.
The district was incorporated under
the Ralph law, now repealed,
and no work has been done toward
actual construction of a sewer.
Taxes of \$442,000 have been levied
for preliminary expenses.U. S. ROAD MONEY BARRED
ON CONVICT LABOR JOBSSenate Votes to Retain Restriction
Contained in Agricultural Ap-
propriation Bill.WASHINGTON, March 4.—The
Senate today voted to retain in the
agricultural appropriation bill a
provision against the use of Fed-
eral aid highway funds on projects
involving convict labor. A House
limitation was retained by a vote
of 45 to 24, overturning the recom-
mendations of the Senate Approp-
riations Committee.Senator Glass (Dem., Virginia),
opposed the restriction with a ter-
tial attack on state aid legislation
as a monopoly and a mis-
appropriation.Senator Wheeler (Dem., Mon-
tana) defended the provision, saying
he was opposed to using Federal
aid to provide jobs for convicts
when free men were out of work.He replied to Glass that much of
Virginia's taxes were paid by
convicts in state prisons and
from people all over the country.Senator Reed (Rep., Pennsyl-
vania) said he agreed with Glass on
the general question of Federal aid
under which he said states had
"sold their independence," but he
added he would not vote to "keep
convicts at work when the money
could go to honest free men out-
side."Three Slain in Fight Over Arrest.
By the Associated Press.MENDOZA, Argentina, March 4.—
Three persons were killed and
five wounded in shooting which
broke out yesterday while police
were attempting to arrest a man
charged with murdering his wife.
The alleged murderer also was
killed.

ALLEGES DAMAGE OF \$10,000,000 TO SOUTHERN SURETY

Suit by Two St. Louis
ans Charges Unauthorized
Transfer of Assets to
Home Indemnity Co.

Special to the Post-Dispatch.
NEW YORK, March 4.—The
Southern Surety Co. of New York has suffered damage totaling more than \$10,000,000 by an unauthorized transfer of assets to the Home Indemnity Co. and the Home Insurance Co. of New York, it is alleged in a suit filed against the three companies in United States District Court here yesterday by two of the Louisiana.

The plaintiffs are G. Locke Tarlton, public works contractor, who has offices in the Ambassador building, and E. A. Luther, formerly manager of the Southern Surety Co. agency in St. Louis.

They describe themselves as minority stockholders and ask for a complete accounting of the assets of the Southern Surety Co. and of its relations with the other two firms.

Charges Diversion of Assets.

The complaint charges that the surety company, through interlocking directorates and officerships, has transferred to the Home Indemnity Co. large sums of money, as well as agencies, contracts and other assets of the surety company, so that it is no longer able to continue in its business of casualty insurance and bonding, except at a loss.

Prior to March 22, 1930, the bill continues, Southern Surety Co. had a premium account of approximately \$12,000,000 a year. On that date the Home Indemnity Co. purchased 100 per cent of the capital stock for \$2,750,000, it is alleged, and through other purchases gained control and proceeded to elect its own officers and directors.

A month later, it is stated, the Home Insurance Co. created the Home Indemnity Co. to operate in the same line of business as Southern Surety Co. Then, the complainants declared, the Home companies began the alleged diversion of Southern's assets.

Shift in Business.

The bill alleged that agents of Southern Surety Co. were instructed by the defendants to place much of the Southern's business with the new company, and required Southern Surety managers to renew all profitable bonds and policies, originally written by Southern, on the Home Indemnity Co.'s books. It is also charged that Home Indemnity took over Southern Surety's agencies, thus becoming heir to most of the business formerly held by Southern.

All this, the complainants say, was done without adequate consideration of the interests of the surety company and its stockholders.

Southern Surety Co., formerly an Iowa corporation, had its home offices in the Paul Brown Building in St. Louis, but was moved to New York about a year ago. Meanwhile, it had reincorporated under New York laws in 1928 with capital stock of \$2,500,000.

\$500,000 TO SAVE REDWOODS

Edward S. Harkness Gives Sum to
California Association.

By the Associated Press.

SAN FRANCISCO, March 4.—Preservation of approximately 6,000 acres of fine redwood forests in Northern California has been made possible by a gift of \$500,000 by Edward S. Harkness of New York, the Save-the-Redwoods League has announced. The contribution has been matched in part by funds from the California State Park Commission and a deed to the forest lands was acquired by the commission.

The new acreage added to the public domain lies along Prairie Creek, from about 15 miles north of Orick, Cal., to a few miles beyond the Del Norte County line, starting about 342 miles north of San Francisco.

ONLY ONE STATE OF 24 VOTING DRY IN DIGEST'S POLL

Kansas 52 Per Cent for Pro-
hibition Which Shows
Wet Gain Compared to
1930 Figures.

LOSES \$500,000 LIBEL SUIT
Norman Baker Brought Action
Against Medical Association
By the Associated Press.

DAVENPORT, Ia., March 4.—

Norman Baker of Muscatine lost

his suit against the American Medi-

cal Association today when a Uni-

ted States District Court Judge re-

turned a verdict in favor of the

association, defendant in a \$500,000

libel action.

Articles published in the asso-

ciation's "Journal" and "Hygla"

attacking the Baker Institute at

Muscatine, South Carolina,

Tennessee, Massachusetts and Iowa

appear this week for the first time

in the voting, and the dry vote

shows a slightly larger ratio than

in previous weeks.

With 1,223,284 votes tabulated

from the 24 states, the vote for

repeal of the eighteenth amend-

ment is 1,024,077, or 77.39 per cent

of the whole, and for continuance

of prohibition 299,207, or 22.61 per

cent. In the first report, the dry

vote was 15.85 per cent, and in

last week's tabulation it was 19.28

per cent.

Kansas shows a majority for pro-

hibition, but not so decisive a ma-

jority as it showed in the corre-

sponding stage of the Digest's poll

of two years ago. This week's fig-

ures for Kansas are \$580 for pro-

hibition and \$187, or 48 per cent,

for repeal. In the third week's

report of the 1930 poll, enforcement

had 17,957 votes from Kansas, and the two

wet proposals, repeal and modification,

had 11,723, or only 38 per

cent. The modification proposal

does not figure in the present poll.

Arkansas and Tennessee have

modifications for repeal, while

most of the other states show re-

peal considerably in the lead. In

Rhode Island, which has just lega-

lized 3 per cent beer, the repeal

vote is more than 5 to 1 in the lead

of the dry vote. In New York the

wet vote is more than 6 to 1, and in

Michigan and Massachusetts about

3 1/2 to 1.

The Literary Digest states that

it has sent out 20,000,000 ballots

in the present poll.

The vote announced this week

on continuance or repeal is:

STATE Contin. Repeal Total

Alabama 2,467 24,682 27,170

**RICE MILLERS TRIED
ON FORGERY CHARGE**

Two Stuttgart, Ark., men accused of issuing fraudulent bills of lading.

Special to the Post-Dispatch.

LITTLE ROCK, Ark., March 4.—The trial of A. U. and H. T. McGill, former Stuttgart rice millers, on Federal charges of forging interstate bills of lading on rice, was resumed today. The Government offered testimony yesterday to show that forged bills of lading were issued on fictitious carloads of rice. A warrant was received yesterday by A. U. McGill, charging him

with using the mails to defraud based on an indictment returned Feb. 17 by a Federal grand jury in Little Rock. The indictment charges he sent false financial statements to the Bootmen's National Bank of St. Louis and the Bankers' Trust Co. of this city and sent them forged bills of lading, which they discounted.

J. M. Grimes, agent for the Rock Island Railroad at Stuttgart, testified signatures introduced on bills of lading as evidence were forged and said he left the railroad company's stamp at the office of the McGill mill.

Other railroad employees testified some of the bills of lading were upon car numbers that did not exist. A Stuttgart rice broker, Harry W. Cormier, said he allowed six bills of lading to be handled through his credit account with the Union Trust Co. of this city without checking to learn whether the cars existed and were filled with rice. One of the drafts was paid him.

MAYOR RUTH ANSWERS OUSTED POLICE HEAD

University City Official Denies
Politics Entered Into Re-
moval of G. F. Ward.

The police Board of University City at a meeting last night, questioned George F. Ward, Police Commissioner, concerning charges made public by him Wednesday that a resignation was forced from him last December on account of alleged political pressure, but was not made effective until April 1, after the aldermanic elections in April.

Recommendations of the Police Board, which consists of Aldermen Ebbs and Schilling, regarding action in the case, will be made at a meeting of the Board of Aldermen tonight.

The present row between Ward and the University City administration is another manifestation of discontent which has existed since the Board of Aldermen reorganized the Police Department in 1930, abolishing the office of Chief of Police, which Ward then held jointly with the executive office of Marshal, and creating a Director of Public Safety and a Police Commissioner. Fire Chief Walsh was named Director of Public Safety and Ward as Police Commissioner, responsible to Walsh.

Ousted Head Put on Probation.

Mayor Eugene D. Ruth Jr., in a statement today, denied Ward's charge that political considerations entered into the case. He said and declared the date of resignation had been set ahead to allow Ward a six-month probation period to satisfy the Board that he could conduct himself properly as head of the Police Department.

Ward's resignation was asked after an insurance company complained that he had telephoned and written them asking a reward for two policemen who recovered \$300 worth of jewelry stolen by a man from a University City residence. The man who allegedly misbehaved was the following statement in the letter: "I again would like to call to your attention the payment of reward to the officers who were responsible for the recovery of this jewelry."

"I requested that the Police Board make a thorough investigation of the matter as University City had a name for being above any sort of petty grafting or petty annoyances of any kind. I pointed out that it was the duty of the Police Board to stamp out at one blow any official that could, or might be, interpreted as 'shake-down' or 'racketeering.'

First Recommended Demotion.

The Police Board after investigating recommended that Ward be demoted to patrolman. The Aldermen accepted the recommendation. Ward asked that the board reconsider and that he be permitted to present his case. The board, after hearing his testimony, in which he expressed readiness to pay a fine, but objected to demotion because of the humiliation, decided not to demote him and instead placed him on probation for six months, accepting his resignation, effective June 1. This consideration was given him in view of his connection with the city since its incorporation, first as patrolman and then as Chief of Police.

"It was the wish of the Board of Aldermen at all times that Mr. Ward would demonstrate his ability to properly handle the Police Department, but recently he has seen fit to make certain statements, some of which he must know are without foundation and are absolutely false."

PLAN FOR LIMITED PARKING
ON TWELFTH STREET VIADUCT

City traffic authorities and the police are seeking some arrangement to permit parking for customers of business establishments facing the Twelfth Street viaduct without amending the general ordinance recently passed which prohibits parking at all times on all viaducts.

A hearing was conducted by the Legal Committee of the Board of Aldermen yesterday on a bill by Alderman Lange to permit parking between 9 a. m. and 4 p. m. on the Twelfth Street viaduct. Lange said the change was desired by the Endicott - Johnson Corporation, Twelfth Street National Bank, St. Louis Mart and Terminal Railroad. Capt. Goodin, head of the Police Traffic Bureau, and City Traffic Engineer Gontier opposed the bill. Goodin saying arrests had not been made in cases of parking offenders, and that the law was aimed against the employees who parked their automobiles on the bridge all day. The decision to seek a compromise was reached at the hearing.

for Financial Aid.TO SAVE ROYAL MAIL LINES
THROUGH REORGANIZATION PLAN
Operators to Form Two Companies
as Result of Financial
Difficulties.

LONDON, March 4.—The famous Royal Mail Lines, representing nearly one-sixth of the normal British mercantile marine, will be tentatively reorganized as two operating companies to avoid financial disaster.

This was announced following recent financial difficulties of the company, which ordinarily carries a million and a half passengers a year and has a personnel of 60,000 ashore and afloat. The Government has £11,000,000 (\$38,280,000) in the company.

Officially known as the Royal Mail Steam Packet Co., the organization will be divided into operating company No. 1, or Royal Mail Lines, Ltd., serving South America, and operating company No. 2, which will serve West Africa.

A moratorium on outstanding obligations until Jan. 1, 1935, was proposed, and subsidiaries, such as

the White Star Line, would operate as at present under the scheme.

The primary objective, it was said, was to enable the Royal Mail

fleets to operate and avoid dis-
tribution which would follow en-
forcement of the rights of individual creditors.

PARTY ON PLAN TO CUT PAY OF UNION BUILDERS

Employers' Fixed Demand Withdrawn and Workers Agree to Conference.

A study of the wage problem in the building industry will be made by a joint committee of union representatives and contractors, it was decided at a meeting held yesterday to discuss the proposal of contractors that wages be reduced in an effort to stimulate construction.

Both sides are approaching the subject "with an open mind," Charles J. Eisenring, president of the Building Trades Council, an organization of 18,000 building mechanics, said after the meeting. Previously the contractors' demand that wages be reduced 23 1/3 per cent on April 1 was met with the reply that the unions would not consider a wage cut.

"The employers' arbitrary demand has been withdrawn, and we have agreed to discuss the probable effect of a cut," Eisenring stated.

In connection with the proposed reduction, Eisenring and Maurice Cassidy, secretary of the Building Trades Council, suggested to real estate dealers that a moratorium of a year be declared on mortgage foreclosures on homes. The labor leader requested the co-operation of the real estate men and sought information on the probable effect of a wage cut on real estate.

The unions will be represented at the wage conference by a committee to be appointed by the Building Trades Council next Wednesday evening. Five representatives will be appointed by the contractors to meet with the union men at a time to be set.

20 Per Cent Wage Reduction for Kansas City Builders.

By the Associated Press.
KANSAS CITY, Mo., March 4.—Contracts calling for a reduction of 20 per cent in wages for one year, starting today, were signed yesterday by representatives of the combined Building Trades Council of Greater Kansas City and the Building Association. The new wage scale ranges from 50 cents an hour for wreckers to \$1.32 1/2 an hour for plasterers.

Needy Family Faces Eviction.
Attention of charitable organizations has been called to the case of Eugene Schaffner, an unemployed clerk, and his family, who live at 1512 1/2 11th Street, a tenement. They are five months in arrears in their rent, and their food and fuel supplies are exhausted. Police report the landlord has given Schaffner notice to vacate April 1. There are two children, Diana, 2 years old, and Eugene Jr., 9 months.

**EINSTEIN OPTIMISTIC
ABOUT MACHINE AGE**

Leaving U. S. for Home, He
Says Better Times Appear
to Be Ahead.

By the Associated Press.
PASADENA, Cal., March 4.—Dr. Albert E. Einstein, eminent German physicist, who has been studying with scientists here, turned homeward today with the observation that far better times appear to be ahead, both for the Old World and the New.

"Whether the machine age has been a benefit or a detriment to humanity as a whole, one cannot say," he said, "but at the moment it appears that, in spite of present conditions, it can lead to better times than ever before."

He said he was "too optimistic" to believe civilization was disintegrating.

"As for other life in the universe, we know nothing, neither the other planets which are in the same stage of development, and upon which conditions are such as to permit life similar to that found on our earth, but it is not possible to doubt such possibilities. It is hardly thinkable that life on other planets does not exist."

Dr. Einstein, who came to the California Institute of Technology last December as a "visiting professor," and Mrs. Einstein, will return to Germany about the steamer San Francisco sailing to-day. They will go through the Panama Canal but will not touch the American Atlantic Coast.

The author of the theory of relativity was in a jovial mood as he and Dr. Richard C. Tolman, distinguished mathematician who acted as his interpreter, faced a group of reporters last night.

Prohibition, Dr. Einstein thought, was strictly an American problem. He said kidnaping was "a sign of lack of sanity in social development, not lack of law."

Asked whether he was satisfied with what he had accomplished here, he said: "No living man is satisfied with what he has done."

Dr. Einstein said he expected to devote most of the remainder of his life to improving his unified field theory, which postulates a single law governing time, space, gravity and electro-magnetism.

"I have given up the general line of thought I was busy on last year and have found out, with my colleague, Dr. Walter Mayer, a new method of working toward the same goal," Einstein said. He has modified his theory that all space is curved, he said, but still is of the opinion that space in the vicinity of bodies of large mass is curved.

FOR WATER RESOURCE INQUIRY

Senator Johnson Calls for U. S. Survey in California.

By the Associated Press.
WASHINGTON, March 4.—Senator Johnson (Rep.), California, has introduced a resolution for a Senate investigation with a view to legislation for "ultimate utilization of the water resources of the Sacramento, San Joaquin and Kern Rivers in California" for irrigation, navigation, flood control and power purposes.

The investigation would be carried on by the Senate Irrigation Committee or a subcommittee with authority to visit the scene. Expenses of \$20,000 would be provided. In a report last year the Office of Army Engineers recommended against Federal construction although favoring a contribution to the cost if undertaken by the State.

Children's Row Causes Duel.
BUDAPEST, Hungary, March 4.—A 10-year-old boy and a 7-year-old girl in line at a ticket booth spread their parents and ended only after the father of one wounded the other male parent in a saber duel. Then the men embraced and the girls kissed and made up.

**USE OF SOFT COAL HERE
DEFENDED BY DEALERS**

Clarence V. Beck Tells Meeting
That Problem Is Proper Fir-
ing of Furnaces.

Smokeless burning of soft coal is the only logical means of abating the smoke evil in St. Louis. Clarence V. Beck, president of the St. Louis Coal Co. and sales manager of the Lumaghi Coal Co., declared last night, addressing a conference at Sheldon Memorial, 3646 Washington boulevard. Beck advocated domestic use of automatic stokers as a means of smokeless combustion of soft coal.

The meeting was called by the Citizens' Smoke Abatement League to give bituminous coal interests opportunity to express themselves. Beck said:

"The coal industry admits that much of the chimney smoke is due to soft coal, mainly for the reason that over 90 per cent of the fuel burned in St. Louis is soft coal. There may be some difference of opinion among those who are not acquainted with the facts, but the coal industry feels that the bulk of the fuel burned in St. Louis must of necessity always be soft coal. And for this reason, it is felt that the smoke problem will only be solved by burning soft coal without smoke. The economic life of St. Louis depends upon soft coal. St. Louis has the cheapest bituminous coal in the world. This gives St. Louis an economic advantage over competitive cities and, even were it possible, it would be suicidal to throw it away."

The cheapest rate for heating purposes for the mixture of natural and manufactured gas soon to be discontinued will be approximately 4 cents per therm or heating unit, Beck said, compared with a cost of 1 to 2 cents per therm for coal. He asserted that at this rate it would require \$18.40 worth of gas to equal a ton of ordinary Belleville coal, or \$20.80 worth to equal a ton of high-grade Southern Illinois coal. Owners of apartments and other large buildings here obtain Belleville coal for \$2.50 a ton for screenings, or \$3.50 per ton for steam lump and egg sizes. Beck related, and small domestic users pay \$4.50 per ton. Beck declared that fuel oil, in comparison, is somewhat cheaper than gas.

It is the combustion apparatus and not the fuel that makes for smokeless burning, Beck insisted. Proper equipment, he said, can make soft coal burn smokelessly in exactly the same way that oil and gas burners make smokeless combustion of oil and gas."

Others who spoke were: E. J. Wallace, president of the Wallace Coal Co., who suggested changes in the building code to provide for modern heating when structural alterations are made and to specify combustion equipment for various types of building; W. F. Davis, president of the St. Louis & O'Fallon Coal Co., who spoke on the economic value of coal to St. Louis; Lawrence G. Sherrill, manager of the Electric Coal Co., who asserted that conclusive proof of the bad effect of smoke on health was lacking; Victor J. Azbe, chairman of the league's Research Committee, who advocated reducing the price of coal, oil and gas for heating and said the league did not want automatic stokers a "fool-proof" solution of the smokeless combustion problem; and Sidney R. Baer, a director of the league, who asserted the city seemed to have let down in enforcement of the smoke laws this winter.

WIFE SUES ROARK BRADFORD

Charges Novelist and Short Story Writer With Abandonment.

By the Associated Press.

NEW ORLEANS, March 4.—Mrs. Lydia Shores Bradford, wife of Roark Bradford, New Orleans novelist and short story writer, has filed suit for separation, charging abandonment. The petition asks for \$900 a month alimony, declaring the writer's income is about \$1500 a month. Judge Mark M. Bonton signed an order for maintenance of the community property intact until hearing of the suit.

Bradford, one of whose novels furnished material for Marc Connelly's play, "The Green Pastures," was charged in the petition with abandoning his wife in January, 1931. The Bradfords were married Feb. 7, 1920, at Jackson, Miss.

5750 Burglary in Home.
Mrs. Mary Zettwoch returned last night from a trip to Florida and found that her home at 2324 St. Louis' avenue, had been entered and furs, clothing and jewelry valued at \$750 stolen, she reported to police.

SENATE DIRECTS
FULL INQUIRY IN
STOCK TRADING

• Votes \$50,000 Appropriation for Investigation Methods of All E changes.

TO LOOK INTO BOTH
BUYING AND SELLING

• Shorts to Be First Witness
When Committee Begins
Its Work Early Next Week.

By the Associated Press.
WASHINGTON, March 4.—Senate today ordered a broad investigation of stock market operations.

The vote came soon after a \$100,000 fund for the investigation was approved today by the Senate A Committee.

The resolution of inquiry was adopted yesterday by the Bank Committee.

The investigation was ordered to the buying and selling operations on the stock exchanges.

PART THREE.

SENATE DIRECTS
FULL INQUIRY IN
STOCK TRADING

Votes \$50,000 Appropriation for Investigation of Methods of All Exchanges.

TO LOOK INTO BOTH
BUYING AND SELLING

Shorts to Be First Witnesses When Committee Begins Its Work Early Next Week.

By the Associated Press.
WASHINGTON, March 4.—The Senate today ordered a broad investigation of stock market operations.

The vote came soon after a \$50,000 fund for the investigation was approved today by the Senate Audit Committee.

The resolution of inquiry approved yesterday by the Banking Committee was adopted by the Senate without opposition and without a record vote.

The investigation was ordered in to both buying and selling operations on the stock exchanges.

The Banking Committee, headed by Senator Norbeck (Rep.), South Dakota, will begin the investigation early next week.

Short sellers will be called first before the committee.

By PAUL X. ANDERSON, Staff Correspondent of the Post-Dispatch.

WASHINGTON, March 4.—The Senate Banking and Currency Committee late yesterday decided without a dissenting vote to ask the Senate for authority to conduct a sweeping investigation into the buying and selling of stocks on all the stock exchanges in the United States. That the Senate will grant the authority seems certain.

Sweeping aside White House efforts to confine the proposed inquiry to "shorts" selling—which would have involved only a few professional "bears"—the committee agreed upon the draft of a resolution under which the Senate would instruct it as follows:

"To make a thorough and complete investigation of the practices with respect to the buying and selling and the borrowing and lending of listed securities upon the various stock exchanges, the values of such securities, and the effect of such practices upon interstate and foreign commerce, upon the operation of the national banking system, and the Federal Reserve System, and upon the market for securities of the United States Government."

"To report to the Senate as soon as practicable the results of such investigation and, if in its judgment such practices should be regulated, to submit with such report its recommendations for the necessary remedial legislation, and the desirability of the exercise of the taxing power of the United States with respect to such securities."

A milder draft had been submitted to the committee by a subcommittee composed of Senators Watson (Rep.), Connecticut; Stever (Rep.), Oregon, and Buckley (Dem.), Ohio, but the full committee, meeting behind closed doors, proceeded to put teeth in the document. The resolution to expand the desirability of taxing short sales was inserted at the insistence of Senator Carter Glass of Virginia, veteran Democratic fiscal author-

It is confidently expected that the inquiry will result in sensational disclosures of market rigging and similar practices, and the press has excited deep apprehension in some administration quarters. Nevertheless, prompt passage of the resolution is forecast. The stock exchanges are in such popular disfavo now that it will require considerable political hardboiled desperation—to vote against the investigation.

Senator Norbeck, South Dakota Republican, is chairman of the committee, and its members include such formidable and experienced investigators as Blaine, Wisconsin Progressive; Costigan, Progressive Democrat of Colorado; Congress of Michigan, and Glass. The sum of \$50,000 is asked to defray expenses of the inquiry, and the committee would have full authority to subpoena persons and documents.

Reporters facetiously asked a member of the committee, after the hearing, what would be done with the trophies of the anticipated fight, and he replied, "We will make rugs out of the bear pelts, and decorate the walls of the committee room with the bulls' heads."

Archduke Has Chicken Pox.
BUDAPEST, March 4.—Archduke Franz, the young pretender to the Austrian throne, was ill of chicken pox and appendicitis today at Steenok's Castle, the family home near

League Facing Problem of Curbing Japan in China or Admitting Treaties Are Scraps of Paper

U. S. Holds Key—If It Will Co-Operate, Effective Economic Boycott Is Possible, if Needed, to Bring Tokio to Book.

By ALBIN E. JOHNSON, Special Correspondent of the Post-Dispatch.

GENEVA, March 4.—After five months of unfruitful effort, in the sphere of moral persuasion, the League of Nations, and its unofficial collaborator, the United States, are up against finalities in the Chinese-Japanese controversy. Although admitting that nothing more can be done with the English language—or French, either—the League is unable to make effect in the extraordinary Assembly which met yesterday to convince Japan's militarists that they should abandon their aggressive policy towards China. Should words fail, the League of Nations, and Washington, will either have to admit that the covenant, and the Kellogg pact and Nine-Power treaties, are scraps of paper, or take steps to protect the sanctity of these documents.

Just how far the 55 nations composing the League are ready to go to preserve the Geneva organization in the face of this intransigent question here today. Actually, the answer lies in Washington. Should Japan continue to flout the League as she has consistently done since last September, the Assembly will remain as impotent as the Council has been—unless an understanding is reached with the American Government. On the other hand, if Washington "puts it in writing" so to speak, and agrees to go along with the League, then Japan may find herself up against a world economic boycott, and perhaps an economic blockade before the present conference of League members is concluded.

Sentiment Against Japan.

At the present moment it appears that Japan is in for another torrent of denunciation by her fellow League members. Since the Shanghai affair world sentiment has turned almost unanimously against her. Even the French, who gave Foreign Minister Yoshisawa the Legion of Honor when he left Paris to return to Tokio to accept a Cabinet post, have made a right-about-face. It is no secret, however, that Paris suddenly found itself confronted with the necessity of either siding with a British-American policy or coming out in the open in defense of Oriental imperialism. The price was not worth it. In the final analysis France has Japan's vote on disarmament measures anyway, which is the only thing that Tokio has to give at the moment. Secondly, France was actually faced with the question of the League's collapse, and weighed against Japan's military assistance, she had no choice other than to back the League, which means infinitely more to her than even a military alliance with the Japanese.

Would Make Victory Barren.

Both Washington and the Council of the League have concurred in warning Tokio that any advantages accruing to her through force will not be recognized. She may establish herself in Manchuria through a fait accompli, but the territory will remain as far as the League is concerned, to say nothing of Russia, a new Alsace-Lorraine in the Orient.

Even though it may not prove possible at the moment, to force Japan out of Manchuria, there will be no abandonment of the League's determination to make Japan's Manchurian maneuver unprofitable in the end. China will never recognize a puppet Manchurian state controlled by Tokio. Nor will American, British or Russian commercial interests admit that.

Another factor which has influenced France's policy is the shifting of the controversy from Article 11 of the Covenant to Articles 10 and 15, and perhaps ultimately to Article 16. France has always contended that the League would be impotent in the face of a major crisis. Her entire disarmament platform is built upon the foundation of a League able to use force, if necessary, against a recalcitrant member. The ideal is one that can only be attained in the very distant future, but if France can determine the direction she will be satisfied for the moment.

U. S. Co-operation Needed.

But here again it is the United States that holds the key. Without the active co-operation of Washington, the League will never invoke Article 16. With America's participation the League would decree an economic boycott against Japan tomorrow if she persisted in her defiance of her Covenant and Kellogg pact pledges.

Although Russia, at the moment, is sitting on the sidelines with the United States and Turkey, at Geneva, while the other nations wrestle with the Manchurian problem, Moscow has much at stake, if not more, than any other country except perhaps the British Empire and America. Behind the scenes there has been more than one attempt to obtain Russian co-operation with the Powers or the League Council. The wily Maxim Litvinoff, however, has refused to show his hand. At first the price of Russia's neutrality was a political and economic non-aggression treaty with Japan. On his way to Tokio from Paris, in December, Foreign Minister Yoshisawa politely declined the overtures made as he passed through Moscow.

"We have the Kellogg Pact, have we not?" the enigmatic Japanese statesman asked. Litvinoff, and Stalin, adding: "Is that not enough, and are not our present trade relations on the most friendly basis?"

The truth of the matter was that Japan had pledged herself at Paris not to sign a non-aggression treaty with Moscow until France did. The French, on the other hand, are confusing Moscow's overtures until her Eastern European allies, Poland and Rumania have come to terms with the Bolsheviks. Poland is ready to accept a treaty, but

GERMAN LEADERS
ALARMED BY FALL
IN BIRTH RATE

**Decline Is at Rate of 100,000
a Year With Deaths
in Lead.**

By the Associated Press.
BERLIN, March 4.—Germany's rapidly declining birth rate is giving her leaders much anxious thought.

The Reich is losing population at the rate of 100,000 a year, deaths exceeding births by 1.6 per thousand inhabitants.

Holding regard to the fact that to keep the race numerically at its level, there should be three children born to every marriage, the ministry of the interior says that the prevailing no-child or one-child fashion threatens a decline which may be fatal to the fatherland's status in the world.

The outlook is especially reflected in education statistics. Here in Berlin, 23 schools are closed because of lack of pupils.

In six densely populated districts of the capital the number of children has diminished from 225,000 in 1913 to 125,000 in 1931. Part of this, but not all, is due to a movement away from the city because of unemployment.

More vivid is a report from Werkritz, a village of 400 people near Cottbus. There is a pupil to be accommodated from the village school in the semester ending at Easter tide and not one new pupil has been registered for the following term.

Ministry of the Interior figures show that in 1900 there were nearly 2,000,000 births in the nation. In 1920 this total had shrunk to 1,126,800. The only bright spots in the statistics are a decrease in infant mortality and the absence of epidemics.

**JAPAN PLANNING TO INVADE
SIBERIA, SOVIET PAPERS SAY**

Acknowledges That Russia Is Engaged in Defensive Military Preparations.

By the Associated Press.
MOSCOW, March 4.—Soviet Russia is increasing its army at the Far East for defense of the Siberian frontier "against Japanese attack," the Government newspaper Izvestia says.

In this first official acknowledgment that Russia is engaged in defensive military preparations, Izvestia asserts that the Soviet Government has come into possession of documents attributed to high Japanese military officials, containing proposals not only for the invasion of Siberia but also for combination with other nations in an attack on the Soviet Union.

Recent events in Manchuria, particularly the serious increase in the number of anti-Soviet provocations, have compelled the Soviet government to take further steps for safety at our borders," the newspaper says.

Even though it may not prove possible at the moment, to force Japan out of Manchuria, there will be no abandonment of the League's determination to make Japan's Manchurian maneuver unprofitable in the end. China will never recognize a puppet Manchurian state controlled by Tokio. Nor will American, British or Russian commercial interests admit that.

Other Buildings Planned.

Besides the four buildings under construction, preparations are being made to expedite the erection of another men's dormitory, two class lecture buildings, another women's dormitory and the oak beams for the half-timbered portions are ready to be put in place.

Chapel Work Delayed.

The first of three dormitories for men is about half completed with all its stone work in place. This dormitory will contain the residence of the dean of men.

Work on the chapel, the cornerstone of which was laid June 2, the first edifice begun, has been halted temporarily because of a jurisdictional dispute between union organization as to which one should direct the scaffolding. The master is expected to be decided by the end of a few days. Progress on the other buildings is not affected.

Progress on Principia's New Buildings

PRINCPIA BUILDINGS
ARE MAKING PROGRESS

Women's Dormitory Nearing Completion, Eight Other Structures to Be Ready Oct. 4.

The first building of the initial unit of the \$3,500,000 Principia College on the Plaza bluffs at Elsah, on the Illinois side of the Mississippi River, 35 miles north of St. Louis, is nearing completion. Eight other buildings are scheduled to be ready for occupancy Oct. 1.

This building, a two-story stone structure of Tudor design in conformity with the English rural architecture of the entire group, will be a women's dormitory and will contain the apartment of the dean of women. It will house 47 students.

The stone work is completed and all that remains to be done to the exterior is the roofing and glazing. Interior appointments will be modern in every detail, including rubber tiling on the floors. The steel work is completed on the women's dormitory and the oak beams for the half-timbered portions are ready to be put in place.

Recent events in Manchuria, particularly the serious increase in the number of anti-Soviet provocations, have compelled the Soviet government to take further steps for safety at our borders," the newspaper says.

"25 FACTS" CITED
IN URGING SENATE
TO OUST BANKHEAD

**Subcommittee Reports No
Election in Alabama Con-
test Which Resulted in
Defeat of Heflin.**

By the Associated Press.
WASHINGTON, March 4.—A Senate election subcommittee found today that Senator John H. Bankhead of Alabama was not elected in 1930 and that his seat should be declared vacant.

The Bankhead-Heflin contest subcommittee divided along party lines on the report prepared by Chairman Hastings, holding that the election was fraudulent because of widespread violation of election laws.

**Democratic members of the com-
mittee, Brattton of New Mexico, and
George of Georgia, will submit a
minority report.**

**The Republicans who agreed to
the report, in an executive session,
were Watson, Republican leader,
and Glenn of Illinois, in addition to
Hastings of Delaware.**

**The subcommittee report will be
submitted to the full committee and must be approved by it before
reaching the Senate.**

The sub-committee has been investigating for a year the contest brought against Bankhead's election by his predecessor, Heflin.

**Heflin was not only that
"there was no election in United
States Senator in Alabama in 1930"
but that Bankhead, a Democrat,
was illegally nominated because of
an unlawful primary. He ex-
plained Bankhead on the charge of
violating Alabama law and the
Federal corrupt practices act
through excessive campaign ex-
penditures.**

**The Democrats said in their minor-
ity view that they would take
a directly contrary position.**

**"We take the position," Brattton
said, "that the irregularities do not
affect the result of the election,
that they were irregularities and
that Bankhead received a majority
of the legal votes cast."**

**"We also hold that if the primary
is legal but that if it was illegal it
does not reach into the election,
and the Senate has no jurisdiction
over the primary."**

**In the report, a document of
many thousands words, Hastings**

LETTERS FROM THE PEOPLE

The name and address of the author must accompany every contribution, but no request will be published. Letters not exceeding 200 words will receive preference.

Hugh K. Wagner's Version.

To the Editor of the Post-Dispatch:
In the Hall's Ferry circle condemnation

matter, the city, by its attorney, offered before the commissioners the testimony of two appraisers appointed by the city to act as experts on the value of the real estate involved. They said the price that was to be paid for on the square-foot basis was worth \$1 per square foot.

The city did not call as witnesses the authors of any of the wild and irresponsible howls that have since been made about the land not being worth more than 20 cents or 50 cents per square foot or other similar confiscatory figures, and, because it would have been irrelevant, the city did not put in evidence before the commissioners the assessed valuation on the price at which the land was bought a few years ago.

After receiving all the evidence offered on behalf of the city, the commissioners heard the offer of the two experts testifying to values of \$7.50, \$5, \$2 per square foot. If we had averaged them, the result would, perhaps, have been about \$5 per square foot.

March 17, 1931, when it was supposed that all the evidence was in, the three commissioners had a meeting, and, when expressions of opinion as to the value of the pieces of land to be adjudged by the square-foot valuation were called for, J. F. O. Reiter and M. H. Rodemyer said that they thought that \$1.50 per square foot would be correct. I said that, in view of all the evidence, I thought that \$2 would be right. After discussion, I said that, as those gentlemen were both in the real estate business and J. F. O. Reiter was especially familiar with real estate values in North St. Louis, I would yield my opinion as to \$2 and agree with them on \$1.50 per square foot.

It was evidence that the city's experts were placing their valuation at as low a figure as they possibly could. We had to use our judgment as to how much too low the price fixed by the city appraisers was, as we had to use our judgment as to how much too high the other estimates were. My record was clear, however, that on March 17, 1931, I had on my own judgment advocated \$2. Never at any time did Judge Hartmann seek to influence my views about the matter or even mention it.

When the three commissioners met again on March 20, 1931, an attorney (Raymond Hartmann, the son of the Judge who appointed the commissioners, Ed.) who appeared on behalf of the owners of the land on the west side of Hall's Ferry road. I had never before heard or known of him in connection with the case. As published in the newspapers, his contract with his clients was dated March 18, 1931. His clients had not previously been represented by counsel before the commission, and, being a lawyer, he was naturally able to argue his clients' case better than they had presented it themselves. He made a concise and clear and convincing argument as to the nature of the damages, which subject had not been raised previously on behalf of his clients, and he made it manifest that his clients were entitled to at least \$5 per square foot, but said that he was asking only \$2. I then said out loud, so that the other commissioners could hear me, and also any bystanders, including the representative of the city law department, "That is what I favored at our last meeting," and Mr. Rodemyer immediately replied, "Yes, you did, Mr. Wagner."

At the meeting of March 20, 1931, the three commissioners were present, and all three voted in favor of \$2 per square foot. The record kept by the law department of attendance by the commissioners at the meetings shows that Mr. Rodemyer was present at the meeting on March 20, 1931, and that he was paid for his attendance on that day. Mr. Rodemyer signed the preliminary report.

Unfair critics, misrepresenting the facts, have tried to mislead the public by a computation that at \$2 per square foot the cost of the land taken would be at the rate of \$7,000 per acre. The city's partisan experts testified that the same land was worth \$45,500 per acre, i. e., at \$1 per square foot. The city's own evidence is on a parity with the evidence of the commissioners, recently sustained by Judge Hamilton in Division 6 of the circuit court.

The owners of the property on the west side of Hall's Ferry road consistently maintained that they did not want the city to take their property at any price, but desired to keep it for the purpose for which they had bought it, and would donate land for a different purpose of improvement.

All the foregoing information was furnished by me to your reporter prior to the publication of your first venomous article on this subject but has never been printed, and, of course, this letter will never appear in your paper, although you have the right to print it in full.

HUGH K. WAGNER.

AMERICAN INDUSTRY GOES TO CANADA.

We commented the other day on the fact that 70 countries have increased their tariff rates since the passage of the Hawley-Smoot Act. This result, it will be remembered, was foreseen and predicted while the bill was before Congress. The world protested against the act. For the most part, the remonstrance was politely couched, but in some instances reprisal was threatened.

Those threats were disregarded by our high protectionists. Senator Watson of Indiana, in particular, availed himself of the customers' complaint of foreigners whenever a tariff bill is under discussion. The warning of American economists, in their memorial to the President to veto the measure—a damper without precedent in our tariff legislation—was ignored, presumably as a mere academic objection. So, too, were the cautious criticisms of business.

So much for the world consequence of the Hawley-Smoot Act. Its effect on trade relations with our neighbor Canada may be presented in concrete, understandable terms. Prime Minister Bennett of Canada recently read before the Canadian Parliament a list of 98 American business concerns which established branch factories in Canada during 1931. They went up there to escape the Canadian tariffs imposed upon our products in reprisal for the Hawley-Smoot embargo upon Canadian products coming into this country. Figures are not available as to production of those plants, but in its entirety it must be considerable. Whatever it is, it necessarily means that that amount of employment has been removed from the United States to Canada, and American labor has been proportionately penalized and Canadian labor benefited.

Not so long ago we had a fine, flourishing trade with Canada. Canadians bought American goods in great quantities and we bought Canadian goods. The balance of trade was in our favor. The banner year was 1921, when our exports to Canada amounted to \$856,000,000, and our imports from Canada totaled \$560,000,000. The Canadian goods we bought were mostly agricultural products, and that gave the political friends of our farmers at Washington an opportunity to do some eloquent talking. Senator Capper of Kansas "led the league" in depicting the floods of Canadians wheat that were pouring in on the American market and the blessings that would accrue to the American farmer by damming those torrents with tariff barriers. We flung up those barriers, first in the emergency tariff act later in the Fordney-McCumber law, and we stopped the inflow from the North. The 47,000,000 bushels of wheat which Canada sent to us in 1921 dwindled to a trickle of 2,500,000 bushels in 1923, and oats and cattle shipments similarly shrank. In money, we lopped off \$100,000,000 worth of Canadian business in the United States, but nobody has ever discovered where the American farmer profited by this trade destruction, least of all the American farmer himself.

But no word of reprisal came from Canada. Instead, overtures were made to Washington to re-establish the reciprocal provisions of the Wilson-Underwood tariff, under which both countries had prospered. Those efforts failed. It was not, however, until the Hawley-Smoot embargo was declared that Canada retaliated. On this issue of retaliation, the Canadian election of 1930 was fought, in which Mr. Bennett was made Prime Minister. And now, with the Canadian market closed to our goods, American manufacturers are moving across the border and setting up their factories on Canadian soil.

Whether the Government at Washington has realized, or even dimly perceives, the ruinous folly of its tariff policy is conjectural. No intimation has ever come from the White House. But there isn't an economist of consequence who believes that trade can healthily be revived while present tariff walls stand, and the opinion is held, too, by industrial and financial leaders. Credit pulsators, anti-deflation politicians, psychic pills to restore confidence—speak kindly of them, but when the phylacteries have all been tried, common sense will then take its turn and its first job will be the smashing of the tariffs, here, there and everywhere.

LUCKY KIRKWOOD.

Kirkwood Sewer District, organized under the repealed Ralph sewer law, has been dissolved by Judge Mulloy. The district supervisors, harkening to opposition to the law, declined to act. Expenses of the district as a result were only \$597. Other sewer districts in the county may look with envy upon Kirkwood. Their supervisors did act. They employed engineers and attorneys at high fees and ran up bills amounting to hundreds of thousands of dollars, though not a spadeful of earth was turned. These bills remain to be paid. The remainder of the county has a headache, and Kirkwood can thank its lucky stars that it also has not been taken down with a bad case of migraine.

NUMBER, PLEASE?

In the last amazing decade of scientific progress, we Americans have become so accustomed to the development of the telephone that it has become difficult to realize the changes a few years have wrought. The annual report of the American Telephone & Telegraph Co. visualizes something of what has happened.

Only five years ago the trans-Atlantic telephone was inaugurated. Now 92 per cent of the 35,400,000 telephones in the world may be connected with any of the 19,600,000 telephones in this country. A St. Louisian sits at his desk and speak with anyone in the United States, or with Canada, Mexico, the Hawaiian Islands, Cuba, Bermuda, the Canary Islands, seven ocean liners, virtually all of western, northern and central Europe, a point in Africa, Java, Sumatra, Eastern Australia and important sections of South America.

Radio telephone is being installed to reach harbor craft at New York, Boston, Seattle, San Francisco and Los Angeles. Defeating storms, the telephone now has 93.6 per cent of its wires protected in underground or aerial cable, with St. Louis as a focal point of important subterranean lines. A new era overseas conversation is pressed by the laying of a fourth telephone cable between Key West and Havana, containing three circuits, whereas the old ones were single. The system has been experimenting on a trans-Atlantic cable. Most of the nation's air transport routes now have private radio telephone service, covering 90 airports and 250 airplanes, and 30,000 miles of wire circuits exchange written messages on the weather and traffic. Last year's

special contribution was the new teletypewriter exchange service. Automatic telephony was augmented until now 37 per cent of American telephones have the impersonal dial of the machine age.

AN OUT FOR LACLEDE.

Now that the Laclede Gas Light Co. has its authorization from the State to serve a mixture of natural and manufactured gas in St. Louis, it should seriously consider whether the rate it proposes to make is actuated by enlightened self-interest.

The approximate saving to the people under the proposed schedule would be 8.3 per cent, but the people of St. Louis County are to get the same product from another company at a saving of 17.3 per cent under the rate proposed for St. Louis. The population of the city is immensely greater than that of the county. Laclede additionally has its distribution system constructed here. We have several times pointed out that the gas company serving San Francisco and surrounding communities enlarged both its volume and profits by putting gas within reach of the people. Is that what Laclede is proposing to do in St. Louis? Is it proposing to make gas a great factor in the fuel and smoke situation? Or is it closing its eyes to its opportunity?

In our judgment, Laclede should think this over. It has ahead of it another valuation battle with the city at a time when all values are low. It has also in the offing an ominous inquiry into the tenure of its franchise. The courts have held that its present rate schedule is not justified by the law of fair return. The Board of Aldermen, aroused by the greed of the corporation at the expense of the people, is out gunning for it.

The obvious cue for Laclede is to seek the good will of St. Louis. It has a big investment here, and the fate of that investment will depend upon the corporation's treatment of the people. It can, if it will, give St. Louis cheap gas. It can do so to help us to lessen smoke. It can increase its custom and its profits. Only the worst possible management of a great corporation could dictate such a course as Laclede seems to have set out upon.

A REMARKABLE BROADCAST.

The radio symposium broadcast Wednesday night by the American Automobile Association as a protest against Federal taxation of motor vehicles was unusual in several respects. Its 20 or more speakers, from all parts of the country, were a cross-section of the motoring public. They included a San Francisco travelling salesman, an Illinois school superintendent, a Connecticut factory worker, a North Carolina editor, the president of the Automobile Club of Missouri. The viewpoints of the farmer, the physician, the tourist, the office employee were given. Every one packed into his one-minute speech a convincing argument, without heat or rancor, against further taxes on an already burdened form of transportation that each had found essential. The personal experiences, facts and figures presented by these speakers stated the overwhelming reasons against increasing the auto tax, and in a manner that must have impressed whatever members of Congress accepted the invitation to listen in. The hook-up was a demonstration of radio's possibilities for becoming a nation-wide public forum, for the expression and guidance of popular opinion.

ANOTHER VICTORY FOR NORRIS.

Among Mr. Hoover's recommendations for strengthening judicial procedure is one which has been urged for years by Senator Norris. We refer to the suggestion that Congress pass a measure "providing that where a corporation, organized under the laws of one state, carries on business in another state, it shall be treated as a citizen of the state wherein it carries on business as respects suits brought within that state between it and the residents thereof and arising out of the business carried on in such a state." It is true Senator Norris would abolish entirely Federal jurisdiction based on diversity of citizenship, but Mr. Hoover's suggestion goes far toward eliminating abuses of that privilege.

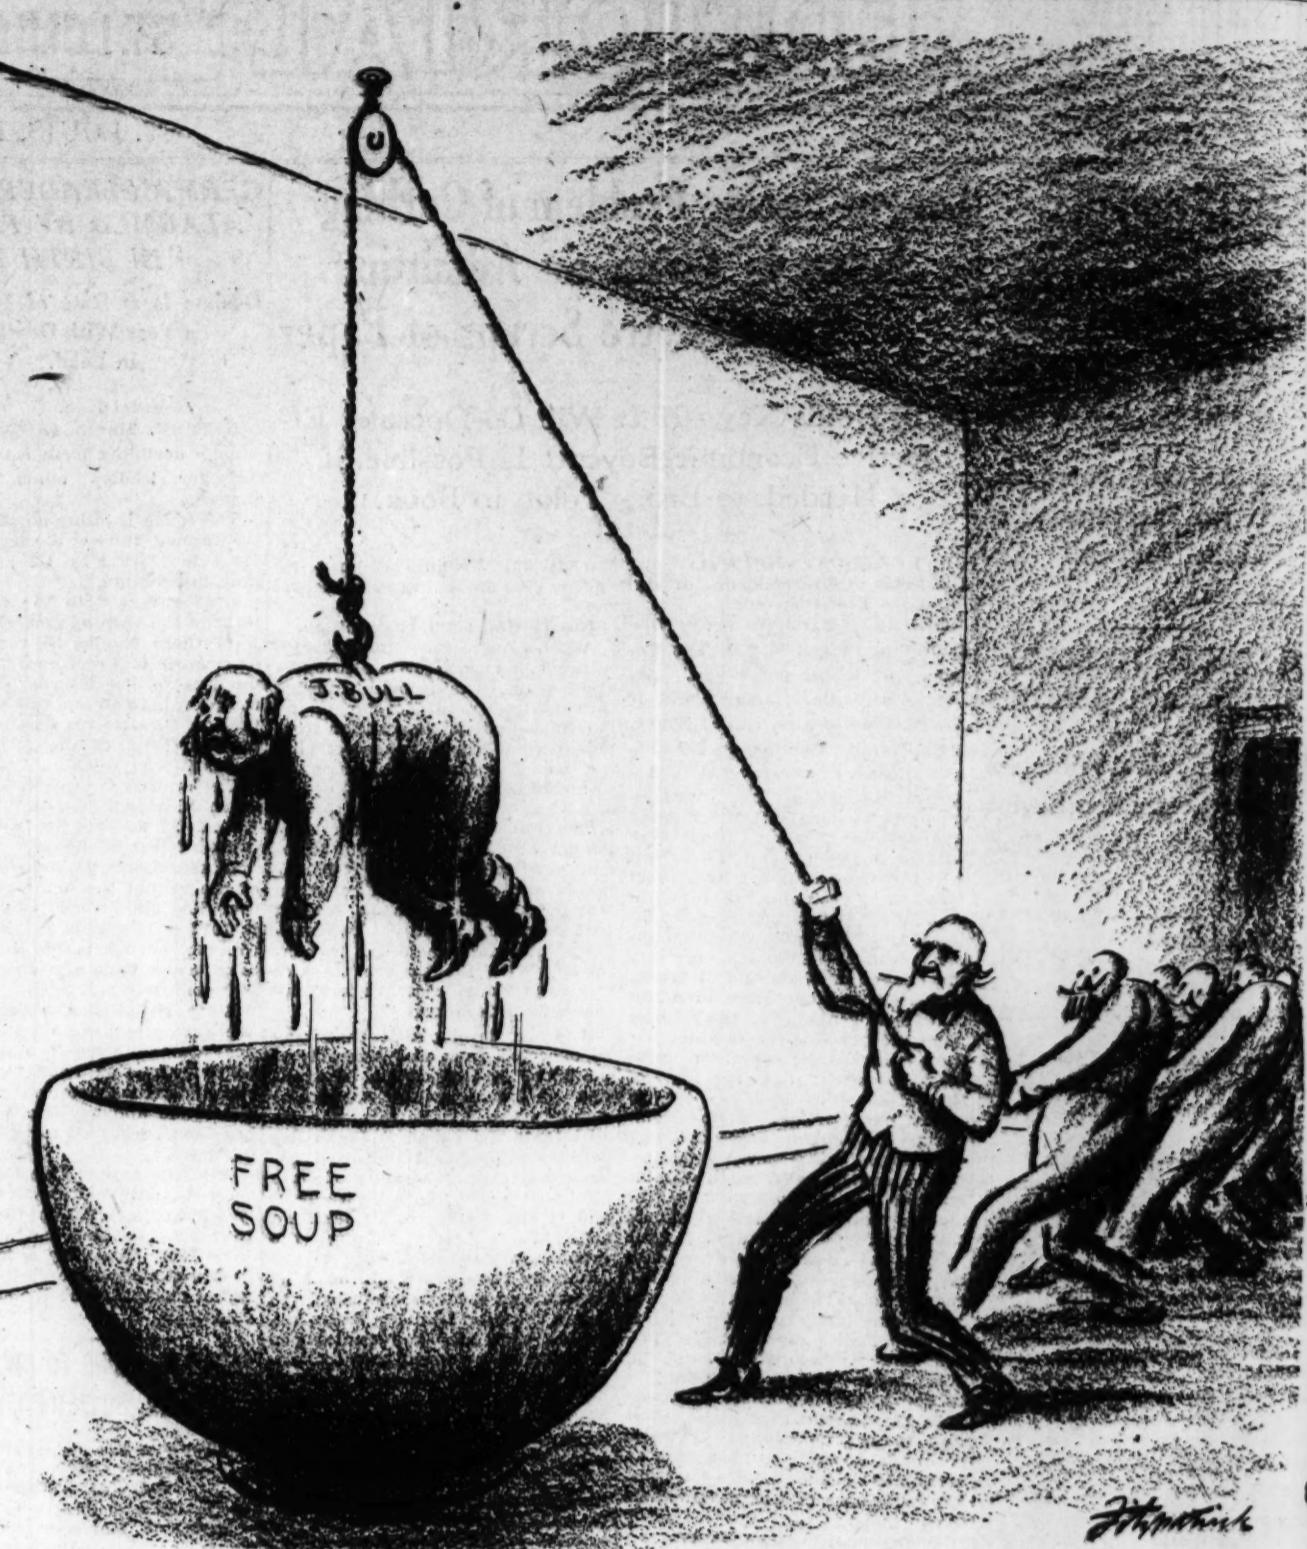

When the constitutional provision was framed permitting citizens of different states to take their troubles to Federal courts, problems arising out of our present business structure could not have been anticipated. Thousands of corporations now do business in all states of the Union, and for them to go to Federal court on the plea that their incorporation papers are filed elsewhere than in a state where they are sued is to distort the purpose of the constitutional provision. For two very good reasons, the practice should be ended. One is to lighten the burden on Federal Judges which, in recent years, has become almost insupportable; the other is to safeguard the interests of litigants whose causes are prejudiced by removal from the vicinage.

The incident again illustrates the remarkable statesmanship of Senator Norris. Any number of his ideas, originally denounced as radical, at last have flowered into respectability. It was so with his proposal to abolish the lame duck session of Congress, his suggestion to do away with the electoral college, his campaign against abuses of the injunction in labor disputes, and it will, we believe, become true of his plan for Muscle Shoals. It is well for the country that the Senate has a man whose exploring mind penetrates the thick epidermis of usage and tradition to the rational core of government.

POPEYE AND SPINACH.

The malicious libel which was perpetrated last Sunday against that genial battler, Popeye, is something we cannot allow to go unchallenged. As everybody saw, our hero was pictured as a devotee of spinach. A red-shirted fellow, it seems, was letting the boys at Rough House's cafe hop him on the chin for the fun of it. Popeye took his turn and, although he was the hardest lick delivered, it didn't faze the chin's owner. Thereupon Popeye called for and consumed all the spinach Rough House could serve up. After that, according to the artist, one swing of an anchor-tattooed arm was enough. We don't like to think of Mr. Segar as being subsidized by the spinach trust, but there is something fishy about it. Popeye might increase his muscle girth on brimstone, ground glass and 10-penny nails, but never on spinach. We serve notice on the artist that if he would have his indefatigable swab remain the hero of childhood, spinach had better be left out of the picture.

Whatever the birth rate, there are always suckers enough around to give a Belvidere Benham a run for their money.

INITIATING A NEW MEMBER INTO THE TARIFF CLUB.

Balm in the Depression Gilead

Going through hangover left by greatest jag in modern history, the country has lost former belief in Santa Claus and false prophets; vigor of sound industries has been proved, and death of sick ones hastened; bogus and gaudy show of national life is eliminated, and hard chift has shown itself more profitable than gambler's luck.

H. L. Mencken, in the American Mercury.

WHAT we suffer from, essentially, is only a gross and persistent Katzenjammer, the natural product of the grandest jag in the history of the modern world. Three years ago every American of any respectability believed thoroughly in Santa Claus. It was an indecorum to doubt, and not only is it indecorum, but also it is nonsense to assume that the low prices which now prevail in some quarters represent real values.

Even the foreign bonds, for all the current upsurge, are surely not complete and sweeping flops. Some of them are backed by what, in a long run, will probably turn out to be perfectly sound security, and others have behind them the good faith of governments and businesses men who may be trusted to pay a substantial part of their debts, even if they can't pay all.

At home the damage, at least on paper, is more serious, but the prudent investor, if he can manage to hang on a while, will have to bear much less of it than the speculator. That investor, at the moment, is suffering a painful decline in his income, and he is forced to unload tomorrow what he would be hardly hurt by. It is of the essence of his position, that he doesn't want to unload, and cannot be induced to do so by mere alarms.

We cannot be doubted that, if public bodies generally had shown, during 1929 and 1931, the signs of unceasing panic that many of them are now displaying, their 1932 difficulties with the embattled taxpayers would have not been completed.

THESE Bishop to Speak Here. The Rt. Rev. E. Cecil Seaman, missionary Bishop of the Episcopal Church in North Texas, will deliver a sermon at the Church of Michael and St. George, Wydown boulevard and Ellwood avenue, at 11 o'clock Sunday morning. During the week he will speak at meetings of women's organizations in churches of the city and Louis County.

**J. GUARD, WHO
AIDED EINSTEIN, DIES**

With Metropolitan at New York
22 Years—Condensed Relativity Theory.

By Associated Press.
NEW YORK, March 4.—William J. Guard, a press agent for 22 years for the Metropolitan Opera House, died last night of a heart attack and pneumonia. He was 59 years old.

It was noted as the man who sold Albert Einstein how to condense his relativity theory. When Einstein dropped in to hear "Carmen," Guard handed him a scribble and line saying, "I have condensed the theory of relativity."

"There is no hitching post in the universe," the paper said.

Einstein took out his pencil and wrote across it: "Read and found correct." Albert Einstein.

Born in Ireland, Guard had newspaper experience in Baltimore and New York, and ones prospect ed for gold. He was Sunday editor of the New York Times when its celebrated sections were inaugurated.

During his work with the Metropolitan Guard made thousands of friends in all walks of life and became widely known throughout America. Night in and night out he could be found at his office in the opera house welcoming celebrities and administering to stars.

He came to the United States when 11 years old. His father, a Methodist minister, first took him to San Francisco where they lived for some years. As a young man he moved to Baltimore where he became city editor of the Herald.

Coming to New York he worked for the *Times*, *Sun* and the *Herald*.

He became acquainted with Oscar Hammerstein who engaged him as publicity director for the Manhattan Opera Company. When the Manhattan was bought in 1919 by the Metropolitan, Guard was with the Metropolitan.

Although a small man, Guard attracted attention by his broad-brimmed felt hat, cap-like overcoat and flowing white hair. He was widely traveled and was said to be a polished flutist.

He is survived by a brother, Percy, who is seriously ill; a brother, James K. of Baltimore, and two sisters, Mrs. Margaret Tanyhill of Baltimore, and Mrs. Helen Barnes of New York.

MRS. SETH H. BUELL DIES

She Was Wife of Pastor of Congregational Church.

Mrs. Seth H. Buell, 53 years old, wife of the pastor of Congregational Church, died today at Barnes Hospital of a blood disease. Mrs. Buell, who resided 3423 Shenandoah avenue, became ill Jan. 1.

Beside her husband, a son, Eugene, who is attending Ohio State University, and a daughter, Katherine, a student at Oberlin College, survive. Funeral arrangements have not been completed.

TEXAS Bishop to Speak Here.

The Rt. Rev. E. Cecil

W. J. GUARD, WHO AIDED EINSTEIN, DIES

With Metropolitan at New York
22 Years—Condensed Relativity Theory.

By the Associated Press
NEW YORK, March 4.—William Guard, a press agent for 22 years for the Metropolitan Opera House, died last night of a heart attack and pneumonia. He was 59 years old.

He was as the man who helped Albert Einstein how to conceive his relativity theory. When Einstein dropped in to hear "Guard" hand him a scribbled line saying "I have condensed the theory of relativity."

"There is no hitting post in the universe," the paper said. Einstein took out his pencil and wrote across it: "Read and found correct. Albert Einstein."

Born in Ireland, Guard had newspaper experience in Baltimore and New York, and once prospectored for gold. He was Sunda, editor of the New York Times when its illustrated sections were inaugurated.

During his work with the Metropolitan Guard made thousands of friends and allies of life and became widely known throughout America. Night in and night out he could be found at his office in the opera house welcoming celebrities and administering to stars.

He came to the United States when 11 years old. His father, a Methodist minister, first took him to San Francisco where they lived for some years. As a young man he moved to Baltimore where he became city editor of the *Herald*.

Coming to New York he worked on the staffs of several newspapers, among them the *Times*, the *Sun* and the *Herald*.

He became acquainted with Ossie H. Hause, who engaged him as publicity director for the old Manhattan Opera Company. When the Manhattan was bought in 1919 by the Metropolitan, Guard went with the Metropolitan.

Although a small man, Guard attracted attention by his broad-brimmed fedora hat, cape-like overcoats and flowing Windsor ties. He was widely traveled and was said to be an accomplished flutist.

He is survived by a brother, Percy, who is seriously ill; a brother, James E. of Baltimore, and two wives, Mrs. Marguerite Tanyhill of Baltimore and Mrs. Helen Barr of New York.

MRS. SETH H. BUELL DIES

She Was Wife of Pastor of Compton Hill Congregational Church.

Mrs. Seth H. Buell, 53 years old, wife of the pastor of Compton Hill Congregational Church, died yesterday at Barnes Hospital of a blood disease. Mrs. Buell, who resided at 343 Shenandoah avenue, became ill Jan. 1.

Besides her husband, a son, Eugene, who is attending Ohio State University, and a daughter, Katherine, a student at Oberlin College, survive. Funeral arrangements have not been completed.

Team Bishop to Speak Here.
The Rt. Rev. E. Cecil Seaman, missionary Bishop of the Episcopal Church in North Texas, will deliver a sermon at the Church of St. Mark, 1000 Washington Avenue, at 11 o'clock Sunday morning. During the week he will speak at meetings of women's organizations in churches of the city and St. Louis County.

SOCIAL ACTIVITIES

TEUCH treat parties are being arranged for a dinner dance to be given tomorrow night at the Racquet Club following a squash racket match to be played in the afternoon between the Racquet Club team and the Kansas City University Club players. The party will be given in honor of the visiting team and their wives.

Mr. and Mrs. William H. Laytis, Mr. and Mrs. Marion Niedringhaus and Mr. and Mrs. Russell Murphy have arranged the largest party. They will have a table for 75 guests, including the out of town visitors. The party will be held at the Arlington Hotel.

The next lecture sponsored by the Junior League which was scheduled for Monday at 11 o'clock has been advanced to tomorrow morning. The Club president, Mrs. C. C. Cullen, will talk on contemporary poetry. Mrs. Cullen has been called to Ireland and time will not permit her remaining until Monday.

The Rev. Frank P. Crunden, 4 North Kingsbury, who has been visiting his son, Arthur C. Crunden, in New York, will go to St. Paul, Minn., Monday to be the guest for a week of his daughters, Mrs. Wallace Cole and Mrs. William Skinner. Mrs. Arthur Crunden has been on a Mediterranean cruise with her mother, who lives in Paris.

The Rev. Dr. Kari Morgan Block, rector of the Church of St. Michael and St. George, will give the last of a series of three talks Monday afternoon before the parents of Mary Institute students in the auditorium of the school. His subject is "How Far Freedom?"

Denise Dunn, 6202 Washington boulevard, who has leased a house in the winter colony of Miami, Fla., will be joined by her daughter, Mrs. Otto Wilhelmi of Webster Groves; Miss Helen Dietrich of Hampton Park and Mrs. Lewis Wallace, 5699 Waterman avenue. They will leave St. Louis Sunday to spend a month in the south.

Mr. J. Vion Papin, 5237 Waterman avenue, was the guest of honor or today at a farewell luncheon given by his sister, Mrs. Millard P. Kaiser, 5225 Waterman avenue. Mrs. Papin will leave St. Louis Tuesday to sail later in the week for Paris, where she will join her daughter, Miss Vion Papin, who is studying art there.

Red tulips arranged in red glass bowls were the center piece on the luncheon table, and the ice was shaped like ships.

Among the guests were: Mrs. Louis G. Chappell Kurnsey of New York and Mrs. William S. Johns of Minneapolis, Minn., both formerly of St. Louis; Mrs. James McClure, Mrs. Frederick L. English, Mrs. Chancery Clarke, Mrs. John B. Slaughter and Mrs. Carl Angel. Bridge followed.

Mr. and Mrs. Papin will have a small supper party at their home Sunday evening in honor of Mrs. Rumsey.

Miss Dorothy Jean Coleman, daughter of Mr. and Mrs. Frank B. Coleman, 5042 Washington boulevard, a member of the senior class at Vassar College, has been cast for the part of Lady Bracknell in Oscar Wilde's play, "The Importance of Being Earnest," which will be presented by the Vassar undergraduate dramatic association March 18 and 19.

Miss Elizabeth Morse will be hostess at a theater party tomorrow night at the Thum Box given by the St. Louis Dramatic Art League. The party will be given in honor of Mrs. Ida Payne, guest director of the Toy Theater Players.

The Salem-Evangelical choir, directed by Mrs. Christian Stocker, will give a program Sunday afternoon at 4:30 o'clock at the Bishop's Memorial of Christ Church Cathedral. This is the fifteenth of a series of Sunday afternoon programs presented this year under auspices of the cathedral, with Mrs. H. Landen Brown co-operating. Following the entertainment an informal supper will be served in the dining room.

see, however, how it can be avoided without arousing the shocking facts disclosed by this record. It is not necessary to show fraud by affirmative evidence. When the evidence produced shows a universal disregard by the election officers of the election laws of a state, the presumption that such officers did their duty is wholly destroyed and credence given under normal conditions to the acts of such officers cannot be depended upon.

"Opportunity for fraud is too apparent to say that it did not exist.

**BOBBY MAY BE SLOW
BUT HE'S PRACTICAL**

Continued From Page One.

"open door" is being maintained.

Japan's solemn declarations that she has no territorial aspirations in China carry absolutely no legal weight in international circles.

Any subsequent Cabinet can with equal facility declare that Japan's "pe

ponderant interests in Manchuria" make a "protectorate" imperative.

On the other hand there are more than 20,000,000 Chinese in Manchuria as against 200,000 Japanese.

The late Gen. Chang Tso-lin, for a brief moment, was pro-Japanese.

When he repudiated his promises to Tokio he was promptly "murdered" to use the only word employed by Dr. W. W. Yen before the League Council. Sato was not given the charge.

The pro-Japanese Manchurian puppet state which today is in power at Mukden can equally easily be bitterly anti-Japanese to

morrow.

Nations of World Concerned.

From a material standpoint Britain, France, Italy, Holland and Germany are vitally concerned in the restoration of China's economic and territorial integrity.

From the standpoint of the League's prestige the neutral states are up in arms.

From the standpoint of preserving the sanctity of treaties and advancement of disarmament all the non-League countries are interested.

Russia and the United States are involved in all the aspects of the problem—moral, political and financial.

Regardless of how far the League

Assembly goes in its effort to force Japan out of China, the next few weeks are likely to prove of immense importance.

It is the first time 55 nations have been called together to preserve the peace of the world.

It is the first time the United States has publicly

declared its out-and-out sympathy

with the Geneva peace-protectors.

Upon the result hangs not only the prestige of the League, but the fate

of democracy as well.

And what is more, in the words of Senator Claude Swanson, member of the American disarmament delegation:

"Why worry about the prestige of the League? That won't suffer."

The thing for us to worry about now is the prestige of the United States of America."

REORGANIZATION PLAN FOR NORTH HILLS CLUB

Reduction in Price of Regular
Memberships Is One Point
in Proposal.

A plan for reorganization of North Hills Country Club, on Florissant road near Normandy, whereby regular memberships will be reduced from \$150 to \$120 a year and social memberships, providing for use of the clubhouse, tennis courts and swimming pool, on payment of fees, will be established at a rate of \$30 a year, as compared to \$40 for the old associate membership, which allowed in addition use of one of the two 18-hole golf courses on the property.

Under the new arrangements regular memberships will be reduced from \$150 to \$120 a year and social memberships, providing for use of the clubhouse, tennis courts and swimming pool, on payment of fees, will be established at a rate of \$30 a year, as compared to \$40 for the old associate membership, which allowed in addition use of one of the two 18-hole golf courses on the property.

Under the new arrangements regular memberships will be reduced from \$150 to \$120 a year and social memberships, providing for use of the clubhouse, tennis courts and swimming pool, on payment of fees, will be established at a rate of \$30 a year, as compared to \$40 for the old associate membership, which allowed in addition use of one of the two 18-hole golf courses on the property.

The new plan will go into effect April 1.

Other changes will be made in the

club's by-laws.

Under the present plan the club

now has about 200 regular members and 800 associate members, but it was thought there would be a decline in associate membership by April 1. The new plan will go into effect April 1.

HOOVER SIGNS \$10,000,000 FARM CREDIT MEASURE
It Makes Money Available for Secretary of Agriculture from Drought Relief Fund.

WASHINGTON, March 4.—President Hoover today signed the Jones resolution setting aside \$10,000,000 for the Secretary of Agriculture to aid in the establishment of agricultural credit corporations. The measure, sponsored by Chairman Jones of the House Committee on Agriculture, was approved by Congress with little opposition. It will enable credit corporations and livestock loan companies to be formed to obtain the advantages of intermediate credit banking facilities. No new appropriation is made. The \$10,000,000 is available from unexpended and repaid balances of the drought relief fund.

HENRY EHRET, STOVE MAN, DIES
Founder of Oakland Foundry Co. at Belleville.

Henry Ehret, president and founder of the Oakland Foundry Co., Belleville, and a member of an early family of that community, died today at St. Elizabeth's Hospital, Belleville, from an abdominal ailment for which he underwent an operation Wednesday. He was 76 years old.

Mr. Ehret founded the Oakland company, manufacturing stoves and heating equipment, associated with him in the business were his three sons, Hugo, Edward and Ferdinand. Funeral arrangements have not been completed.

Besides the sons, his widow, Mrs. Susan Ehret and three daughters survive.

EASIEST WAY TO BREAK UP COLDS

Feel Like a New Person Almost Before You Know It

If you want quick relief from a cold, go back to first principles and use something you know does the business—don't start "trying" a lot of fancy ideas or remedies.

Get Hill's Cascara Quinine. A scientific formula made to do ONE THING WELL: to knock a cold in a jiffy, not to cure a hundred different things.

Take two tablets every three hours. Drink lots of water between times—that's all. Soon the aches, aching pains, headache, body aches, the cold breaks up, poisons leave your system and you feel like a new person.

If it doesn't do that, your money back. Get a box now for a few cents. You'll be surprised at the speed with which it works.

BOSTON CREAM PIE as a Famous Chef Makes It

Have it at Home

Chefs of Chicago's famous hotels use Kosto to make dozens of their finest desserts. Boston Cream pie filling is just one way.

By all means learn about Kosto. Get all three delicious flavors, chocolate, lemon and vanillin. It makes a rich, creamy pudding in 5 minutes—at 2c a portion. Simply mix with milk, bring to a boil—and eat, hot or cold. Or you can add fruits, nuts, bananas or lady fingers for variety. Treat the family to the rich smoothness of a Kosto pudding tonight. 10c at your grocer.

LUNCHEON SOUPS THAT MAKE A MEAL

Little Else Needed for Midday
If These Are Substantial.

A good, savory soup goes a long way for the noon meal, especially if there are children home from school. The soup may be so satisfying both in taste and food values that only a little cooked fruit and cookies are necessary to make the meal complete.

Nothing better than rich, thick vegetable soup, which may be made as follows: Simmer four sliced carrots, four sliced onions, one stalk of celery with leaves, one and one-half cups canned tomatoes and four cubed potatoes for about an hour in one quart of beef stock and one quart boiling water.

To make your own beef stock, soak one pound of beef bone in one and one-half quarts water for an hour. Brown one pound shank meat in small amount of fat and add to kettle. Simmer three hours. Add one sliced onion, one-half cup sliced carrots, one teaspoon celery seed, three cloves, six peppercorns, one sprig parsley and one teaspoon salt, and simmer two hours more. Strain, cool and clarify. This makes about one quart.

And here is a cheese and onion soup which is rich and substantial and requires the following ingredients:

Three small onions (sliced), two tablespoons fat, two-third tablespoon flour, one and one-half pints hot stock, two-thirds teaspoon salt, one-eighth teaspoon pepper, six rounds of buttered toast, two tablespoons grated cheese.

Brown onion in the fat; add flour and cook one minute. Pour on stock, add salt and pepper, cook 10 minutes. Place a round of toast in the bottom of each soup plate and pour the soup over it. Sprinkle the cheese over the top and serve hot.

HOT SLAW

This may be made with either red or white cabbage and is given in answer to a question for hot slaw made with the former. Shred a small head of either red or white cabbage. Beat two egg yolks and mix with one-fourth cup cold water, one-fourth cup vinegar, one tablespoon butter or salad oil, and one-half to one teaspoon salt. Stir constantly over hot water until thickened and smooth.

Pour over the shredded cabbage; put in a frying pan or a saucepan and stir over a slow fire until the cabbage is thoroughly hot and slightly wilted. It must be shredded very fine. A little sugar and one teaspoon celery seed may be added if desired.

ANGEL CUP CAKES

Scald one-half cup milk with two tablespoons butter. Add one cup sugar. Mix one cup sifted cake flour with one teaspoon baking powder, one-fourth teaspoon salt, sift again and stir into the liquid mixture. Beat the whites of four eggs until foamy, add one-fourth teaspoon cream of tartar and beat until stiff. Fold into the cake batter and fold over and cover until thoroughly blended.

The mixture will be quite thin. Pour into 12 cup cake pans that have been greased and sprinkled with flour. Bake in a moderate oven—375 degrees—for 20 to 25 minutes.

CREAM OF SPINACH SOUP

Cut the root ends from one and one-half pounds of spinach, wash the leaves carefully, then cook in one cup boiling water for 10 minutes. Drain off the water and run the spinach through a coarse strainer. Mix the pulp with one teaspoon grated onion, salt and pepper to season, a few grains of grated nutmeg and the water in which the spinach was cooked.

Melt four tablespoons butter, add four tablespoons flour and when blended, stir in four cups milk. Continue stirring until thickened and boiling, add the spinach mixture, season with more salt if necessary and serve in bouillon cups.

NEW POTATOES

New potatoes are becoming cheaper and better and in many instances it may be found more economical to buy them than the old ones, which are not particularly good just now. When the new ones are used, wash them thoroughly and boil with the skin on. Peel when done, season with salt, pepper, melted butter and seasoned parsley or mash in the usual way.

When served with the minced potato, they are known as "parsley potatoes," as are the little balls cut from potatoes that are boiled and seasoned in the same way.

CITRON AND NUT CAKE

Beat one-fourth pound butter until creamy, add one-half pound powdered sugar and the yolks of three eggs and beat thoroughly. Add one-half cup milk and one-half pound flour which has been sifted, with two teaspoons baking powder and one teaspoon brandy.

Cut one-fourth pound citron into small strips and chop one-fourth pound nuts and add to the cake mixture. Beat the whites of three eggs and fold in. Bake about one hour in a moderate oven.

CHICKEN SALAD IN POTATO SHELLS

Plan to have baked potatoes the day before the party. Bake large ones until soft, cut a slice from the top of each one, lengthwise, and scoop out the pulp. Save the skins, using one for each portion of salad. Cut cooked chicken in dice to make four cupsful, mix with three cups diced celery, two hard-boiled eggs, chopped fine, one-half cup sliced onions, one-fourth cup well-seasoned French dressing. Let stand at least an hour, drain, mix with three-fourths cup mayonnaise and chill. Line the potato shells with lettuce leaves and fill with the salad. Serve potato chips, a ham-cake roll, celery and olives on the plate with the salad. Serves eight.

BRAN MUFFINS

Mix one and one-half cups bran flakes with three-fourths cup flour, two teaspoons baking powder, one-fourth teaspoon salt and one teaspoon sugar. Stir in one and one-half cups buttermilk and beat well.

PIMENTO GIVES ZEST TO CANNED FOODS

Flavor Enhanced and Pleasing Color Added by Its Use.

On your shelf of canned goods, pimento most certainly deserves a place, for it can be used so often to good advantage. Added to salad, cooked with tuna fish, served with asparagus, in tomato soup and cheese gelatine and with meat balls, it's always good. And the touch of gay color it adds is another reason for using it.

One of the best of creamed soups is pimento, recipe for which is given below.

A good dressing for vegetable salads can be made as follows: To one cup of mayonnaise add three tablespoons of chopped canned pimento and one tablespoon of chopped onions.

A green and red salad is a lovely touch for a bridge luncheon; group five or six canned asparagus tips on lettuce, sprinkle with grated Swiss cheese, and on top place a bow made of three narrow pimento strips. Put a small dab of mayonnaise on top of bow.

Tuna With Pimento.

Drain oil from can of tuna fish, remove bones, and heat in white sauce seasoned with salt, mustard and paprika. Add enough diced pimento to give a bright color and serve in patty shells.

Pimento Soup.

Press half a small can of pimento through sieve, add one-fourth teaspoon tabasco sauce and a speck of cayenne. Add this mixture to creamed soup stock made as follows: put four tablespoons butter in a top of double boiler, add four tablespoons flour, blend well, add one and one-half teaspoons salt, two cups of milk slowly, stirring all the time, one cup of canned peas mashed and two cups of vegetable liquid. Cool slowly about 25 minutes, stirring often.

Pimento Mold.

One cup tomato soup stock, one cup milk, one package cream cheese, one-half cup minced pimento, one tablespoon lemon juice, one tablespoon gelatin.

After soaking gelatin in cold water, dissolve it in soup which has been brought to a boil. Cream cheese with milk, adding a dash of salt and pepper and lemon juice. When soup and gelatin are cool enough to begin setting, fold into milk and cheese, adding pimento at same time. Place in molds lined with narrow strips of pimento. Chill and serve on lettuce leaf.

Pimento Meat Balls.

One pound ground meat, one-half cup grated cheese, one lemon juice, two tablespoons finely chopped pimento, one teaspoon salt, one cupful bread crumbs, one-half cup milk.

Mix above ingredients thoroughly and shape into balls. Roll in bacon slices, skewer with toothpicks and bake in moderate oven about 45 minutes. Garnish with narrow strips of bright red pimento.

CORNER BEEF HASH

Mix together two cups of corned beef, two cupsful seasoned mashed potatoes, four tablespoons of chopped onion. Spread on a baking dish and make depressions or wells by pressing the bottom of a custard cup into the hash. Drop a raw egg into well and cook until eggs are done.

Put this in the center of a platter, arrange around the edges halves of cooked carrots, brushed with melted butter. Alternate with prunes prepared in the following way: remove the pit from a cooked prune, insert a stuffed olive and roll the prune in a strip of bacon. Bake for 35 minutes in a hot oven.

RICE NUT LOAF

WITH BREAD CRUMBS

Nuts may be used as real food as well as being served salted. Cook one-half cup of rice in one and one-half cups of boiling water until tender. Melt three tablespoons of butter, add three small onions chopped fine and cook until yellow. Add one egg well beaten, cooked rice, one cup bread crumbs, one cup chopped nut meats, one teaspoon of dried parsley; one-half teaspoon of poultry seasoning, one teaspoon of salt.

Mix well, shape in a loaf and place in a baking dish. Bake in a moderate oven, one hour, basting frequently with melted fat.

BAKED BEANS WITH ONIONS

Soak one pound navy beans over night in cold water. Next day drain, cover with fresh cold water and boil slowly for 40 minutes. Drain, saving two cups of the liquid. Put the beans in a deep casserole, add bean pot and bury two small onions in beans. Sauté one-half pound of fat salt pork, scald, drain and stick down in the beans. Add to the two cups of bean water, one-half cup dark molasses, two teaspoons salt, one-half teaspoon pepper, two teaspoons salt, one-half teaspoon pepper, two teaspoons prepared mustard and one tablespoon brown sugar. Pour over the beans, cover and bake in a slow oven for four hours.

If the beans seem to dry out, add one cup more water or as much as needed. When done they should be dark brown in color and slightly juicy.

USE MORE EGGS

ORANGE PIE WITH MERINGUE

Eggs have been so cheap these last few weeks that it has been possible to use them frequently in meal planning without being in any way extravagant. And they are so valuable as food that they should have a big place in the family dietary. Very young children are fed egg yolks as a source of iron, phosphorus, fat and vitamins, and experts advise that if possible one egg a day should be planned for school children.

This should be the right consistency to spread between cake layers. Add coffee slowly, beating well, and be sure not to put in too much or the filling will be thin.

When there are any objection to eating them by themselves, put them in puddings, in soups or combine with other foods. Remember that eggs should be cooked slowly to be most digestible.

Boston Brown Bread.

Mix one cup sugar, one-third cup flour, one-fourth teaspoon salt, grated orange rind, one cup orange juice, two tablespoons lemon juice.

Mix dry ingredients and add fruit juice and cook in double boiler 10 minutes, stirring until thickened. Add two tablespoons butter, three egg yolks beaten light. Cook two minutes longer. Cool and turn into baked pie shell. Cover with meringue made of: Three egg whites, six tablespoons sugar, one-fourth teaspoon baking powder.

Beat egg whites until frothy, add sugar and baking powder and continue beating until stiff. Put into moderate oven for 10 minutes to brown.

Orange Pudding.

Mix one cup sugar, three table-spoons cornstarch and one-fourth teaspoon salt. Add two cups boiling water, stir until thickened, cover and cook for 10 minutes in double boiler.

Cook two cups of cranberries with one cup water until soft. Press through a fine sieve and add pulp to cornstarch mixture.

Boston Brown Bread.

Mix well one pint graham flour, one pint corn meal, one cup molasses, one cup sour milk, one cup sweet milk, one teaspoon soda, and a pinch of salt. Put in cans, covered tightly and steam for two hours.

**RULES FOR CORRECT
FOOD FOR CHILDREN**

Malnutrition Results From Improper Diets in Many Homes.

The thousands and thousands of children who are suffering from malnutrition are proof that more care and thought are needed in planning food for them, for many cases are due to the wrong kind of food rather than to lack of it. In many homes there is a feeling that as soon as youngsters are old enough to eat solid food they can eat anything, and it is no longer necessary to make any special provision for their dietary needs.

This kind of reasoning is all right if the grown-ups are eating the kind of food that will provide for the growing needs and development of children, but nine out of 10 such is not the case, though the foods used might very readily be adapted or changed slightly to make them suitable.

The problem of the proper feeding of children is one that is engaging the attention of nutrition experts and educators all over the country in schools, communities and homes. In number of communities mothers' classes have been formed in connection with public school activities and mothers are receiving instruction in the planning and preparation of food, as well as in the special needs and requirements of growing boys and girls. The children themselves are being taught good food habits through health classes and through supervised school lunches in many cities.

Meals for children cannot be left to chance; they must be carefully planned, well cooked, and served without making the child unduly food conscious.

The following rules, which have been given as a guide in planning food for children, are as well suited to the food needs of the whole family, and may generally be used when it is not desirable to plan special foods for children, and this means in the average family of today.

1. See that clean, wholesome milk is used for children—a quart a day for children up to 6 years and at least a pint a day for older ones.

2. Serve plenty of simply cooked vegetables of all kinds, either fresh or canned. Use leafy vegetables at least twice a week.

3. Serve food without comment as to its nutritive qualities, or without remarking on the necessity for eating it. Take it for granted that it will be eaten and liked. Avoid expressing dislikes for food yourself.

4. Never force a child to eat when he is cross or tired. If the refuses food, leave him alone, and don't talk about it. Make him wait until next meal time for anything to eat.

5. Serve a hot breakfast, a simple lunch or supper and a substantial dinner.

6. Serve meals at regular hours.

7. Set an example of eating slowly and chewing food.

8. Drink plenty of water between meals.

9. Keep to simple foods, simply cooked and seasoned. Avoid rich sauces or gravies and highly spiced or seasoned foods.

10. Children often need a mid-morning or mid-afternoon lunch, but this should be given at a regular time and should consist of fruit, bread and butter, plain crackers, a glass of milk or a sandwich.

11. Remember that the right amounts of the right kind of foods are necessary if a child is to be healthy and grow as he should.

QUICK CHICKEN

Use one can whole chicken (2 ½ to 4 pounds and already cooked). Separate jelly from chicken. Cut the chicken apart. Wipe dry. Dust with flour, salt and pepper. Fry in 4 tablespoons fat about 5 minutes. To the fat in the pan add one tablespoon flour, blend on slow fire, adding one cup of chicken jelly heated. When boiling, add ½ cup of milk. Stir until smooth. 1 cup canned mushrooms, cover and simmer five minutes. Add more seasoning if necessary.

SUNSWEET California PRUNES

A healthful habit for boys and girls...

SUNSWEET tree-ripened Prunes for breakfast every morning. Full of vitamins. Full of the valuable mineral salts... and very gently laxative. Sealed in clean handy cans.

Tree-ripened fruit

FRIDAY, MARCH 4, 1933

SPANISH OMELET

Melt one tablespoon butter, add one tablespoon minced green pepper, one teaspoon minced onion and three chopped mushrooms. Cook slowly for three minutes. Add one-half tablespoon flour, one-fourth teaspoon salt, little pepper, and mix well.

Add one cup canned tomatoes and simmer gently until thick. Serve this sauce with any regular omelet recipe.

FRIDAY, MARCH 4, 1933

CHEESE PIE

WITH LEMON FLAVOR

One-fourth cup butter, three-fourths cup sugar, five egg yolks, two teaspoons lemon juice, one teaspoon grated lemon rind, one cup cottage cheese, three-fourths cup flour, one-half cup cream, three egg whites.

Cream the butter and add the sugar. When thoroughly mixed add the egg yolks, beating in each yolk separately. Add the lemon juice and rind. Press the cottage cheese through the flour and mix with the sugar and eggs.

Combine two mixtures. Fold in beaten egg whites. Pour mixture in pan lined with pie crust and bake in slow oven until crust to the touch (about an hour).

Rice Muffins.

Soften one cup of cold boiled boiled rice with one cup of warm milk. Add two tablespoons of melted butter, one teaspoon salt, one-half cup sugar. Beat two eggs and mix well. Put in well-greased muffin pan and bake in moderate oven about an hour.

IT MAKES A HIT!

Try its spicy savor on fish, meats, salads, sandwiches

I.G.A. STORES
THOUSANDS OF STORES FROM COAST TO COAST

LITTLE PARAGRAPHS
OF HOME INTEREST

From Peanut Butter to Egg
Beaters and Baby's
Vegetables.

A novel flavored hard sauce is made by mashing a small ripe banana with one teaspoon grated lemon rind and one teaspoon lemon juice then whipping in confectioner's sugar to make a thick smooth cream—about one and one-half cupfuls. Chill before serving.

Peanut butter is a highly nutritious food, and belongs to the protein and fat groups. All nut meats are concentrated in food value, and in using peanut butter as any nut meat this fact must be taken into consideration. Eaten to supplement the protein and fat content of a meal it is a splendid addition to the diet; it should not be eaten in such great quantities with every meal, unless it is the sole source of protein and no meat or fish, etc. is used.

Crisp raw celery may be given to children who have teeth enough to chew it, though it may have been younger children sucking on biting on celery with a great deal of enjoyment. This is, however, not to be especially recommended, and raw celery, as any other raw vegetable, is best left to those children from five or more years on, and then only given if you can be sure it will be well chewed.

Cut iceberg lettuce across in slices from one-third to one-half inch thick instead of trying to separate the tightly packed leaves. Salad fillings may be attractively arranged on a flat green surface, or a garnish of hard boiled egg yolk rubbed through a strainer and finely chopped egg whites spread over the lettuce. Serve with French dressing or mayonnaise. Russian dressing, etc.

Rinse egg beaters with cold water immediately after using, shake to remove the water and hang up to dry. Never let the eggs or wheel of the egg beater lie in water. Wise cooks keep two sizes in egg beaters on hand—a small one to beat one egg in a tea cup or small bowl, and the other a regulation size for several eggs.

Do you take advantage of canned vegetable pulps in preparing meals for babies? It is no longer necessary to spend tedious and tiring moments washing, cooking and pureeing spinach, carrots, etc., for the young'uns' dinner. If these are available in small cans, carefully and scientifically prepared and perfectly adapted to the diet of babies and young children.

STEAMED CHOCOLATE PUDDING
WITH SUPREME SAUCE

Roll stale, dry bread or run it through the meat chopper. Measure two and one-half cups fine crumbs and mix with four teaspoons baking powder, three-quarters teaspoon salt. Work in butter and sugar into one-quarter cup butter and when thoroughly blended add one egg and beat smooth. Next, stir in one and one-half cups milk.

Melt three squares unsweetened chocolate over hot water. Add the bread crumbs and the chocolate to the milk mixture and mix well. Pour into a buttered pudding mold, cover and steam two hours. Turn out and serve with whipped cream or supreme sauce.

Supreme sauce: Cream one-third cup softened butter with one cup powdered sugar, then add one egg and beat until smooth and creamy. Next add one-half teaspoon grated orange rind, one teaspoon vanilla and fold in one cup whipped cream.

VEGETABLE STEW
WITH DUMPLINGS

Cook half cup sliced onions, one-half cup sliced carrots and one-half cup sliced celery in four tablespoons melted butter or drippings for 10 minutes, but do not let them brown. Then add two cups shredded cabbage, one cup canned corn, two cups fresh or canned string beans and one cup diced potatoes.

Next add four cups boiling water, two teaspoons salt and two tablespoons minced parsley. Cover and boil slowly for 30 minutes. Mix one cup flour with two teaspoons baking powder and one-quarter teaspoon salt. Rub into it two tablespoons shortening and when well blended add cold water or milk to make soft dough.

Drop from a teaspoon on top of the boiling stew, cover and continue cooking for 10 minutes. Turn out on a hot platter and serve as soon as possible. Two cups canned tomatoes and two cups water may be used in the stew instead of four cups of water.

CANNED PEACH SALAD

Mix one and one-fourth pounds chopped nuts (pecans or walnuts are best), one-half pound stoned chopped dates, and one small bottle of cherries. Add enough juice from cherries to make a stiff paste of the mixture.

Form mixture into balls the size of peach stones. Fill centers of six canned peach halves. Serve on lettuce with mayonnaise.

Roasting meat. When preparing beef or other meats for roasting, sprinkle with seasoning sauce before rubbing with salt. This brings out all the flavor of the meat and gives it a delicious taste.

Home Economics

BEGIN THE DAY WITH BRAN AT BREAKFAST

Leftovers May Be Fried Next Day or Used for Fruit Pudding.

Bran for breakfast is a good start in a healthy day's program. It's nutritious, rich in vitamins and easy to serve. Vary the serving now and then by putting orange juice on it instead of cream, or use prune juice, diluted with lemon.

Cook an extra amount occasionally and serve the surplus the second morning fried with bacon strips. Let it stand 24 hours in a long pan so the fat cuts in rather than slices for frying.

Another good use for left-over bran from breakfast is to add seeded raisins, or canned figs cut up small, with one cup of fruit to four of cereal. Turn into small molds previously dipped in cold

water, chill and serve for lunch or supper with whipped cream or fruit sauce.

And here's a delicious steamed pudding with bran breakfast food: Sift together one-half cup flour, one-fourth teaspoon salt, one-half teaspoon baking powder, add one cup cooked bran, one-third cup sugar, one-half cup finely chopped beef suet, one beaten egg, one-half cup milk and one-half cup of any kind of jam.

Beat mixture thoroughly, turn into a greased mold, cover with greased paper and steam two hours. Serve with any desired sauce.

FRESH VEGETABLES

Fresh string beans, new peas, rhubarb, tomatoes, radishes, cucumbers, new carrots, spinach, young and small bunches of asparagus, watercress, several varieties of lettuce, fresh pineapples, and strawberries are making steady appearance now and as the season advances, are becoming less expensive.

From the "appetite appeal" viewpoint they are delightful and should be used when they can be worked into the meal plan without putting too much strain on the food budget.

India Tea is vastly different from teas you have used before. "There's more to it!" More fragrance! More fine, wine-like flavor! More of the strength that tea drinkers desire! India grows the world's finest tea. To get it, look for the Map (above) on packages of tea you buy!

Sell heaters or homes through Post-Dispatch Wants.

You can't wash with the size or name or price of a box or bar of soap

Many bar and box soaps are on the market. Big boxes, small ones, heavy cartons, light packages—fluffed, flaked, chipped, powdered and solid.

You can forget the difference in looks—it's the soap inside that does or does not conquer dirt.

Here's what you are sure of in a package of White King Granulated Soap—

...Its contents are all soap—it's condensed—it contains no moisture, no silicate of soda,* no tallow base—no air.

...It is made of pure, sweet, clean vegetable and nut oils—the kind you eat—

...It suds richly in luke-warm water—

...Clothes need no boiling, no rubbing, no bleach or bluing—they wash perfectly without this added toil—

...It saves fabrics because it does away with these destructive methods—

...It goes farther, pound for pound, than any other soap on the market—

...It costs less because its weight is all soap weight—nothing else—

Try White King Granulated today—learn there is a way to wash and clean without drudgery.

*Silicate of soda serves only as a weight maker in soap—it has no cleaning value

WHITE KING Granulated
for every household use

Menus for the Week

SATURDAY
Breakfast: Stewed figs, Hot wheat cereal, Scrambled eggs, Toast, Coffee, Cocoa or Milk

SUNDAY
Breakfast: Baked apples with marmalade and sausages, Coffee, Cocoa or Milk

MONDAY
Breakfast: Oranges, Oatmeal, Boiled eggs, Marmalade, Coffee, Cocoa or Milk

TUESDAY
Breakfast: Hot whole-wheat cereal, Poached eggs on toast, Coffee, Cocoa or Milk

WEDNESDAY
Breakfast: Sliced oranges and Read-to-serve cereal, French toast, Bacon, Coffee, Cocoa or Milk

THURSDAY
Breakfast: Orange juice, Boiled ham, Bran muffins, Honey, Coffee, Cocoa or Milk

FRIDAY
Breakfast: Grapefruit on toast, Creamed codfish on toast, Coffee, Cocoa or Milk

Planning the Menus and Recipes for the Week Column, published in the Home Economics Department of today's Post-Dispatch. (Copyright, 1932.)

WHY NOT ARTICHOKE FOR A BRIDGE LUNCH?

Seldom Served, but Delicious and Lower in Price

Now.

If the bridge luncheon is to be rather more elaborate than usual, why not have artichokes as one of the main items? They are not served nearly as often as they deserve to be as they are very good, and give a little touch of what one woman calls "hotel style" to the meal.

To cook these, trim off the stem, remove the coarsest leaves and trim off the points of the rest with a pair of scissors. Put in a large kettle with enough boiling water to cover them, or rather to float them, for they will stay on top of the water. Add one teaspoon salt and one teaspoon lemon juice for every three artichokes. Cover and boil gently for 25 minutes or until a leaf can be pulled off very easily.

Drain, place upright on hot plates and serve with a little dash of melted butter, dressed liberally with lemon juice and paprika, or with hollandaise sauce.

Large artichokes may be cut lengthwise in half after cooking. To eat them, pull off the leaves one at a time as you eat them, dip the thick end in the sauce, and pull through the teeth to remove the meaty pulp. Place the discarded leaves neatly on one side of the plate.

The smaller leaves on the inside may sometimes be entirely eaten if the artichoke is very young. Close to the center is a fuzzy section which is cut out with your knife and fork and placed to one side. The bottom of the artichoke is a choice tidbit and is cut in pieces, dipped in the sauce and eaten.

NEW SHREDDED BISCUIT EXTRA GOOD WITH HOT MILK

Kellogg's WHOLE WHEAT Biscuits Offer Many Improvements

Kellogg's WHOLE WHEAT Biscuits are especially delightful with hot milk. Many mothers are taking advantage of this in serving a healthful and most convenient breakfast treat these cold mornings.

Before the new Kellogg's WHOLE WHEAT Biscuit was introduced, the Kellogg Company submitted it to the Medical Arts Laboratory of Philadelphia, which found it so rich in food value that every package now carries a certificate.

This means that mothers can now know definitely that their children are getting a well-balanced food whenever they serve the new Kellogg biscuit—extra rich in minerals, vitamins, proteins.

Kellogg's WHOLE WHEAT Biscuits are "pre-baked" by a special process that bakes in the delicious flavor. At the same time, it retains all the valuable food elements of the whole wheat.

The biscuits are much crispier and tastier because they are toasted a tempting brown on both top and bottom—not just one side. They are baked in a more convenient, economical size. Two biscuits just fit the cereal bowl—and you get 15 to the package.

Identify this improved cereal by the red-and-green package. Made by Kellogg in Battle Creek.

"I know you'll be pleased with the WHITE BANNER"

There is no need to content yourself with anything less than the best. New White Banner prices are within the reach of everyone's purse.

AND she will be pleased—never a doubt about that. White Banner always wins the enthusiastic satisfaction of all who appreciate real malt quality. And the same identical high quality is packed in every can. That's what holds White Banner's vast army of friends—it's absolute dependability. This unvarying uniformity is due to the use of costly controlling apparatus, plus careful watching and constant testing by laboratory experts. Try three cans and you'll understand the meaning of "always the same". Save the labels for valuable premiums.

Write for Lorna's Free Recipe Book for delicious foods and candies, also free catalog of valuable White Banner Malt Premiums. Address: Premier Malt Sales Co., 106 N. Broadway, St. Louis, Mo.

**SAYS RIVALS CAUSED
BEAR RAID ON STOCK**

Pipe Line Company Head States Attack Occurred After Warning to Abandon Project.

By the Associated Press.

WASHINGTON, March 4.—A statement by Frank P. Parish, president of the Missouri-Kansas Pipe Line Co., that a 100,000-share order had proved insufficient to support his company's stock in June, 1930, "in an attack by Standard Oil (Henry L.) Doherty," was presented to a House Judiciary Subcommittee today by Representative Gregory (Dem.), Kentucky.

The statement said a bear raid had occurred after his company began construction of a 1200-mile natural gas pipe line system between the Texas Panhandle and Indiana, and was endeavoring to secure the necessary financing through common stock.

It said that L. Fischer, vice president of the North American Light & Power Co., told him in Chicago, June 14, 1930, that unless the proposed line was abandoned, the stock would be raided. June 16. The statement continued:

"Fisher said that unless I would

**GOES TO JAIL FOR BROTHER
AFTER AGENTS RAID STILL**

Alex Carter's deception discovered, Eight Sentenced to Prison for Bootlegging on Them.

Weaver, Ill., whose 19-year-old brother, Alex, was willing to sacrifice freedom for him, was sentenced to six months in jail and fined \$100 on his plea of guilty of liquor law violations by Federal Judge Wham at East St. Louis yesterday.

Prohibition agents raided a still in Williamson County and obtained information that Charles Carter was the operator, according to records read in court. Alex Carter represented himself to be Charles and was placed in jail. The deception was later discovered and Charles was arrested, but an information has also been filed against Alex charging him with similar violations.

Eight other men who pleaded guilty of liquor law violations said they were forced into the bootlegging business because of unemployment. Sentences and fines imposed were as follows: Ralph Johnson, East St. Louis, six months; Paul Little, West Frankfort, \$100 and four months; Allen Gebauer, East St. Louis, \$100 and six months; Lawrence E. McClure, Duquoin, \$50 and 60 days; Frank Standerfer, McLeansboro, \$100 and four months; George Kirkland, Duquoin, \$50 and 60 days; George Williford, East St. Louis, \$50 and six months; August Roberts, Negro, Duquoin, 10 days.

ROBBER TAKES LAST NICKEL

Store Manager Has to Borrow Coins to Call Police.

SPRINGFIELD, Ill., March 4.—A robber who held up a chain grocery store Wednesday was so efficient that the store manager had to borrow a nickel to telephone police.

After intimidating the manager and two clerks, the robber scooped all the money out of the cash drawer and hurried from the store.

**ASKS FOR SENATE INQUIRY
IN KENTUCKY COAL SITUATION**

Costigan Wants Investigation of Reported Peonage Conditions Among Miners.

WASHINGTON, March 4.—A resolution calling for an investigation of the Senate Judicial Committee of the Kentucky coal mining areas was submitted to the Senate today by Senator Costigan (Dem.), Colorado.

Costigan told the Senate he hoped the investigation "would be authorized and vigorously pressed."

He asked specifically for an inquiry into conditions in Harlan and Bell counties, in which group of New York writers recently had difficulties.

Among the things the resolution asked to be investigated, Costigan told the Senate, were: Whether any system of peonage exists among the miners; whether persons have been arrested or convicted without due recourse at law; whether conditions have interfered with shipments of coal from the area.

WASHINGON, March 4.—Im

mediate publication of a report on the Thomas Mooney case prepared for the Wickersham Commission was urged today to a group of Senators by Mrs. Mary Mooney, 84-year-old mother of the California

**MRS. MOONEY CARRIES FIGHT
TO SENATE; MAY SEE HOOVER**

Urged in Letter That Report Made for Wickersham Board Be Published.

WASHINGTON, March 4.—Immediate publication of a report on the Thomas Mooney case prepared for the Wickersham Commission was urged today to a group of Senators by Mrs. Mary Mooney, 84-year-old mother of the California

Robbed by Hitchhiker.

By the Associated Press.

JACKSONVILLE, Ill., March 4.—James P. O'Brien, who said he was from Hollywood, Cal., reported to the police last night he was robbed of his automobile, \$360 in checks, \$11 in cash and a gold watch by a hitchhiker whom he had picked up on a highway near Carrollton, Ill.

Mrs. Mooney said in a letter to four Senators that the report was the "chief hope there is that my son will be freed from the prison where he has been unjustly kept 15 years."

"When all the people know what is true, they will make Gov. Ralph (of California) pardon Tom," she added.

Inclement weather kept Mrs. Mooney from going personally to the capital to see the Senators. She sent the letter to Norris of Nebraska, Walsh of Montana, Costigan of Colorado, and Cuttig of New Mexico. Tomorrow she plans to appeal to President Hoover.

UNIONVILLE Cuts Salaries and Fees.
UNIONVILLE, Mo., March 4.—With a view toward reducing the cost of running the city, the Council has voted to cut the salaries and fees of the City Marshal and Collector. While the cut will not be effective until after the spring election when the new officers take control, the rate allowed the Collector has been reduced from three to two and a half cents and the salary of the City Marshal from \$60 to \$25 a month.

*Like Magic—this new cleaner
wipes away DIRT and GREASE*

YES—just like magic—Garden City Waterless Cleaner cleans everything—walls, rugs, furniture, floors, stoves, fabrics, etc. No more rubbing. No more scrubbing. Just put it on—then wipe it off. Garden City Waterless Cleaner does the work. It absorbs all dirt, grease, blotches, yet does not harm the finest finish or most delicate fabric.

This sounds like a miracle, but it is the result of years of laboratory experiment, and this creamy white compound does absorb grease, dirt, and foreign substances yet does not in the slightest affect cotton, wool, silk, paint, varnish, wood or metal.

Your refrigerator, sink, tables, windows, oil cloth can be cleaned with the greatest ease. Your bathroom, your tub, lavatory, tiled floors, painted walls of linoleum can be cleaned better, easier, and in much less time. See your local dealer today and buy a bucket of Garden City Waterless Cleaner. Accept no substitutes, insist upon Garden City Cleaner for perfect results.

GARDEN CITY PAINT & VARNISH CO., CHICAGO, ILLINOIS

REFORMER CONVICTED OF SHOOTING YOUTH

Daniel L. Gilday, Prohibition Crusader, Gets One to 14 Years in Prison.

By the Associated Press.
CHICAGO, March 4.—Daniel L. Gilday, 65-year-old reformer, was convicted yesterday of assault with attempt to kill Herman Knol, 17, the jury recommending a penalty of one to 14 years in prison. Gilday was arrested Nov. 29 when he and another youth went to Gilday's assistance because they thought he was drunk.

Gilday, identified for many years with prohibition and vice reform organizations and president of a law and order league on the South Side, testified that he "must have been drunk." He said he mistook Knol and his companion for robbers.

Gilday also said he had been suffering from a severe headache. A physician told the jury Gilday had suffered from dizziness and headaches for two years.

Knol said he and his companion saw Gilday staggering on the street and offered to take him home. They were on their way to a Bible class at the time.

The prosecutor described Gilday as "a man who walked the streets with a lily in one hand, a gun in the other, and a bottle of booze in his pocket."

After his arrest Gilday was found to have several stars indicating police authority, a bottle of whisky and a revolver.

CARDINALS READY FOR GAME WITH ATHLETICS TOMORROW

YOUNG PITCHERS TO START FIRST EXHIBITION OF SPRING SEASON

Reds' Star in the Fold

Athletics' Young Players to Oppose Cards in Opener

By the Associated Press.
FORT MYERS, Fla., March 4.—CONNIE Mack will stay in town with the Athletics' three biggest winners, Lefty Grove, Rube Wohler and Leroy Mahaffey while the other boys go to Miami to play the Cardinals Saturday and Sunday. Connie has picked Rommel Stein, Krause, Cain, Bowman, Doshong, Dumford, Barbour Madjeski, Heving, Hammond, Foxx, Rootert, Williams, Dykes, McNair, Chock, Haas, Miller, Coleman and Cramer for the Miami trip. Capt. Eddie Cahn is in charge.

The regulars from the season's first practice game from the Yannigans, 5 to 3. Both teams used three pitchers, each for two innings. Joe Bowman, Lew Krause and Lou Barbour pitched for the winners, and Irvin Stein, Wilbur Dumford and "Sugar" Cain for the losers.

By J. Roy Stockton.

BRAZENTON, Fla., March 4.—Charles E. Street, manager of the Cardinals, is alarmed. The world champions have not yet started their spring exhibition schedule. They play their first game at Miami tomorrow, facing the Athletics, champions of the American League. But the Red Birds have progressed so rapidly in their preparation for the 1932 pennant race, that the Old Sergeant is afraid they will be ready too.

"If we don't have some bad weather pretty soon," the leader of the champions declared last night, "I will be forced to declare a few artificial holidays. The boys are too far along. We have had almost two weeks of perfect weather, and the boys who were on the job at the appointed time are almost fit for the start of the campaign."

Street said that in weather such as the Cardinals have had since their arrival at Bradenton, a major league team could prepare in a few weeks for the opening of the championships race.

The Old Days.

"In the old days ball players did not take very good care of themselves during the winter," the Old Sergeant explained. "Then it was necessary to put them through a long conditioning course. But ball players are different today. Of course, when you figure the race lasts six months and fighters sometimes train six weeks for one hour of fighting, we are not overdoing the training course. But ball players nowadays are business men. They work during the winter, or at least keep themselves in physical condition. They have to.

"Competition is keener, and there always is a squad of young players who will have the jobs if the older fellows don't watch their steps. And, of course, salaries and changed conditions have attracted a more sensible group of men to baseball. But what I'm pulling for is a few rainy days. We're too far advanced and if we keep on getting this sunshines, I'll have to send the boys off fishing or loafing some way."

The Old Sergeant sent his men through two long workouts yesterday and for the first time since the squad arrived, the batting cages were scenes of activity. Joel Hunt and Eddie Delker were sent to the cages by the manager to take special courses of instruction and other players, after taking a turn at bat in batting practice at the plate, frequently went to the batting cage for a session here.

Pitchers were sent through a long drill at fielding bunts and covering first base, and this gave the batters valuable practice at laying down sacrifice bunts.

Only One Session.

There was only one workout today, as the Red Birds departed at noon by bus to Miami. Manager Street has announced that he will make your session at the park. Macken, Ray Star, the rubber-armed recruit from Rochester, probably will start against the American League champions tomorrow, with Tex Carleton and Bud Teachout also scheduled to work three innings each against the enemy.

The second game of the series will be played Sunday, with the teams moving to the Macken's camp at Fort Myers for the third game Monday.

George Kopshaw, Piedmont League umpire, has joined the Cardinals and will umpire in their exhibition games.

Pat Crawford, the first baseman from Columbus, arrived last night and will remain here to work with the team is playing at Miami.

Dodgers Need Outfielders.

CLEVELAND, Ohio, March 4.—All four Dodger ball with Manager Max Carey of the Brooklyn Dodgers if he could lay his hands on a couple of outfielders. In particular Carey would be delighted to welcome to camp Frank (Lefty) O'Doul, Floyd C. (Babe) Herman and Johnny Frederick. Herman is still trying to persuade the club he's worth \$18,000 but the other two should be in camp.

TRAINING CAMP GOSSIP

"Red" Lucas Accepts \$2500 Salary Cut From Reds—Appling to Try to Win Place at Third Base With White Sox.

Lucas Comes to Terms.

By the Associated Press.
TAMPA, Fla., March 4.—Yielding

on the eve of the exhibition season, "Red" Lucas, ace of the Cincinnati Reds' pitching staff, will be in camp Saturday, ready to take a \$2500 cut in salary. He phoned Manager Howley of his capitulation yesterday. His acceptance of a salary of \$14,000 completed the Reds' pitching staff, leaving only four infielders among the irreconcilables. They are Cuccinello, Stripp, Hendrick and Morrissey, a recruit from St. Paul.

Expect Morgan to Speed Up.

NEW ORLEANS, March 4.—Competition from a rival candidate for the manager job of the Cleveland Indians is being counted upon. "Lefty" Lucas, ace of the Cincinnati Reds' pitching staff, will be in camp Saturday, ready to take a \$2500 cut in salary. He phoned Manager Howley of his capitulation yesterday. His acceptance of a salary of \$14,000 completed the Reds' pitching staff, leaving only four infielders among the irreconcilables. They are Cuccinello, Stripp, Hendrick and Morrissey, a recruit from St. Paul.

Miss Orcutt and Mrs. Lake in Final Of Women's Golf

By the Associated Press.

ST. AUGUSTINE, Fla., March 4.—Helen Hicks, national women's golf champion, was eliminated in a thrilling 19-hole semifinal match of the Florida East Coast Tournament today by Mrs. Marion Purple Lake of New Orleans, twice Southern Golf Association and Trans-Mississippi titleholder. Miss Hicks never was able to gain a lead on Mrs. Lake.

Marion Orcutt, former Metropolitan champion, played one of the best games of her career to break the woman's course record of 74 by two strokes and advance to the final by defeating Virginia Van Wie of Chicago, another veteran campaigner of the links. 5 and 2.

Mrs. Lake and Miss Orcutt will meet in the final tomorrow.

LAST NIGHT'S FIGHTS

By the Associated Press.

LONDON—Larry Johnson, Toronto's Dan McWirkins, South Africa's

SHIRLEYPORT, Conn.—Jack Delaney, Bridgeport, knocked out Phil Johnson, Boston, in 17 rounds.

COAST BILLIARD STAR LEADS IN AMATEUR MEET

By the Associated Press.

FRENCH LICK, Ind., March 4.—Dale H. Goalin, youthful Los Angeles cyclist, holds top position at the end of four days of play in the national amateur 12.2 balkline billiards championship tournament here.

An outsider in the field of seven, the Pacific Southwest title holder

has won four of his five games and

has a half-game lead over Edgar

T. Appleby of New York, the de-

fending champion, and Percy N.

Collins, of Chicago, six-time

holder of the crown. Goalin can

assure himself of a title for the title

by a victory over Collins today.

Monrad C. Wallgren of Everett,

Wash., Pacific Coast champion,

won the tag, made a run of 92 from

the break and won on to win by

300 to 71 in 10 innings, against

Collins last night. It was the best

performance of the tournament for

the number of innings and the high

run.

Goalin opened action yesterday

by defeating Wallgren, 300 to 265

in 20 innings, having a high run

of 48 to Wallgren's 41. The Amer-

ican triumphed over Aris Schap

of Chicago, 389 to 150 in 35 inni-

ngs. His high run was 69. Schap's

17. In the final game last night,

Ray V. Fessenden of Madison, Wis.

defeated Horst T. Galey of Tulsa,

Ok., 260 to 252 in 26 innings, with

a high run of 59 to Galey's 43.

The standings:

Player. W. L. H. B. T. P. I. M.

Appleby .3 .1 .29 .30 .112 .182

Collins .1 .3 .18 .26 .171 .103

Goalin .4 .0 .42 .366 .130

Wallgren .1 .0 .33 .21 .180 .186

TODAY'S SCHEDULE:

Schap vs. Goalin; Goalin vs. Wall-

gren; Schap vs. Galey; Appleby vs. Wall-

gren.

5000 SEATS WILL BE AVAILABLE FOR TILDEN'S TENNIS SERIES HERE

A total of 5000 seats will be available for Bill Tilden's tennis matches at the Washington University Field House March 15, ac-

cording to an announcement made to Harry Shaw, local promoter.

The program of matches will

By James M. Gould.

Henry Graves, a lanky red-headed junior with legs like parentheses, is the big hero on the Washington University campus today. And, despite so far, for last night at the Field House he just about won the city collegiate basketball championship for the Bears, who defeated the St. Louis U. Billikens, 29-27, after three extra periods had been played.

It was like 14 matches in the old days, with 17 to wrestle against him. The seconds last night are still being rung out on the clock. You can grunt and groan, but the rest of the modern world, whereas he usually was, is still in the old days.

Henry Graves, a lanky red-headed junior with legs like parentheses, is the big hero on the Washington University campus today. And, despite so far, for last night at the Field House he just about won the city collegiate basketball championship for the Bears, who defeated the St. Louis U. Billikens, 29-27, after three extra periods had been played.

It was the most sensational game of the year and a stirring climax to the season it brought to a close. The attendance was the largest of the year and 2,247 persons who paid to see the title contest can remember a thrill-filled evening.

During his sophomore year Wagner played forward, but was shifted to center during the season just

through the game, made his presence felt in the third extra period.

With St. Louis leading, 27 to 25, the redhead was fouled by Grandone and was awarded two free throws. If there ever was a psychological moment here was one. Two successful tries meant a win and a chance for his team to then hop nimbly up to normality until the next must have thought ring with some old acquaintance. And it inspired him, for he would make you the like you would like him and bounce up a nice, fat stomach. It must be a judge, a professor or someone else who would have thought him up a moderate long heave and the Billikens were beaten.

These four important points put Graves in the scoring lead for the game with 9 points. Grandone and McCarthy of St. Louis following close with 8 points each.

An early free throw gave the Billikens the first point of the game but failure to score from the floor until 15 minutes had passed gave the Bears a half-time lead of 13 points to 10. The second period the score was tied twice and, in the second regular period, which ended with the teams deadlocked at 22-22, the count was all even four more times. In this half, the Billikens found the range from the floor and scored six field goals, one more than the Bears.

After a short rest the battle was on again. Jim Shea got away and sank a pretty goal to give the Billikens an edge.

But, with seconds left, Whitehouse, himself in the hero class, tried a long shot and saw it go through to make further play unnecessary. Again they went at it and, in the second extra stage, Grandone sank a free throw and the same Whitehouse responded with another.

The story of the final period has been told, with Grandone bidding for hero-honors with his early field-goal and Graves working in his superplay to win the game, the city championship and the silver trophy presented by Charley Reber, the veteran player and official.

TOMORROW'S RACING ENTRIES AND SELECTIONS—OTHER SPORT

25 LOCAL STARS TO COMPETE IN SKATING EVENTS

Twenty-five speed skaters, the pick of the local stars, will represent St. Louis in the coming post-Olympic skating championships to be held at the Arenas Sunday afternoon. With the exception of the Furman brothers, Adolph and Harry, all the local stars have entered.

Heading the list of Mound City stars are Charleen Powers and Lamar Martin. Miss Powers at Chicago last Saturday defeated the Canadian in the 440-yard final and tied with Lula Brooks Potter for the Western champion.

The other senior girls who will aid Miss Powers are Miss Detah Powers, Helen Wallace, Bee Slater and Alice Charnoske. Jimmy Jamieson, John Bretz, national five-mile champion; Elmer Dorsmont, Ted Young, Roy Beckman and Ed Weidner are the senior men entered besides Ottens.

The Missouri Skating Association will be well represented in the lower classes. Tom Conley, regarded as the strongest intermediate skater in the country; James Mackey and Jerry Cohen will face strenuous opposition 'in Wilbur Marks of Chicago, the national champion, and Walter Dooley of Lakewood, O., the Eastern champion. Other intermediate skaters are expected from Chicago and Milwaukee.

Bob Fiske is the best of the local juniors. He shattered a world's record last week at Chicago. Luccius More is another clever skater in the lower classes.

Emmett Dahn of Cleveland, the leading juvenile skater in the country, will be here and will be opposed by Buddy Bearman and Bud Lewis.

In the figure and fancy skating events, local skaters will aid Phil Taylor and Megan Taylor, the visiting stars. Mr. and Mrs. George Mueller, Ollie Haupt Jr. and Elizabeth and Shirley Jean Reflow will give exhibitions.

Joe Forshaw announced this morning that tonight at 8 o'clock the officers of the Missouri Skating Association and the Western A. A. U. would meet at the Elks Club, Lindell at Grand, to complete final arrangements for the meet.

NEHI TEAM TOTALS

3133, CONLEY 720, IN SOUTH SIDE LEAGUE

Elmer Conley's Nehi bowling team went on another rampage in the South Side Major League at Frank Heidel's alleys last night and turned in counts of 1024, 1076 and 1033 for a total of 3133, which enabled them to win three games from the Buehlok five.

The match was featured by the battles of Conley and Bill Ludwig, who scored, respectively, totals of 720 and 605. Conley had games of 214, 248 and 255, while Ludwig hit the pins for counts of 202, 214 and 278. Al Dischinger rolled 653 with a high game of 265.

The Wayside Inns totaled 3082 and won the odd game from the Hellhounds in another good match. The Waysides won the first two games with games of 1030 and 1067, while the Hellhounds took the fifth with a score of 1043. The high scorers were: Dammen, 653; Brown, 638; Mateker, 631; Spielman, 649; Hofer, 647, and Beckmeyer, 620.

The Heidel five won three games from the Silver Seals and the Cornwalls won two from the Sturms in the other matches. Heidel, 621; Schlutown, 616; Lamely, 605, and Rohrbach, 617, were the high scorers.

JACKIE FIELDS MEETS INDRISANO, TONIGHT

BOSTON, March 4.—Johnny Indrisano of East Boston, inspired by the hope that he may proclaim himself an uncrowned king, tonight meets Jackie Fields, welterweight champion in a 10-round bout.

The champion's last appearance in Boston was a rather sad affair. His performance against Gorilla Jones brought his dismissal from the ring by the referee, who declared the bout "no contest," and Jackie promises to do better against Indrisano, who holds decisions over two former welterweight rulers, Joe Dundee and Tommy Freeman. Both the decisions were gained by the East Boston lad in non-title bouts.

bling House N
Said to Have MBy the Associated Press.
YOUNGSTOWN, O. March 4.—A son of a Niles contractor, kidnapped in the early morning, was returned safely to his home by the Associated Press.

The boy was recovered by Harrison, Mahoning County de-ceived. The posse stormed the two men.

The men were seized and taken to the Trumbull County jail at Warren. They were booked as John D'Emarco, 30, and Dowell H. Graves, 27, both of Youngstown. Police said they admitted the kidnapping and said they had led the boy directly to the place where he was found, which had been unclosed for several weeks.

Woman Once Held There.
The house where the boy was found is located well back from Hubbard-Youngstown road, behind a barbeque stand and filling station. It is the same place where Josephine Devine of Niles was held captive for several days about a month ago, when she was abducted from her place in Niles known as "the Red House," police said. The place was raided by Harrison Sheriff J. C. Fisher of Trumbull County, and Dowell H. Graves, Chief Charles Nichols, and County Deputies Lawrence O'Rourke and Jack Lundy.

Harrison declined to name the man who told him in a telephone conversation: "Go to Scotty's place and you will find that DeJute is on Niles."

The Mahoning County officer of the Trumbull and Federal men of Vienna. They surrounded the house and kicked in the door. They rushed into a room bare all furniture, but there were on the floor and a fire was burning in the kitchen stove.

Apparently there was not a in the house. One old mattress two pillows were on the floor of living room. A rifle and a pistol were found in a corner.

Find School Books.
Then Detective Harrison spook on the floor. It was an arithmetic text book. Turned back the cover the detective written on the fly leaf: "James Jute, 327 Robbins Avenue, Niles, grade 5-A, Lincoln School."

Silence fell over the group officers for a moment.

Jimmie," called one of the officers.

"Yes sir, yes sir," came the response. "Here I am." The officers quickly found that one of the was four feet thick. Harrison Fisher kicked into it. Their was crushed through a flimsy structure which was revealed as a false wall.

Within a few minutes the partition was ripped away. The 12-year-old Jimmie, who was shivering between two men, one of whom held a revolver, Jimmie recognized Deputy Sheriff Lundy, and rushed into the officer's arms.

Boy Is Taken Home.
"Take me home please," he said to his father and mother. "I was trembling, but said he was afraid. He exclaimed that he had burst into tears.

The abductors were handed over to the officers. One was said to be a suspected Niles bootlegger, since the morning the boy disappeared. The other gave an address in Brooklyn, N. Y.

Local police said they did know him.

The distracted parents of boy did not know of the boy until Sheriff Fisher's car drove in front of the De Jute home, bringing the lad back.

The boy was in good condition and did not complain of his treatment while in the hands of captors, authorities said.

The finding of the boy when it was found he might have been slain. The Federal Bureau of Investigation had stopped the investigation.

Since Wednesday morning, boy's father, James de Jute, wealthy contractor, had been the kidnappers to send him.
